EXECUTIVE SUMMARY
To: Clyde Hill City Council and Citizens
From: George S. Martin, Mayor
Date: December 10, 2019
Re: 2020 Budget Message

I would like to thank the City Council, the City Staff and the Citizen Budget Advisory Committee (Mike Foley, Bruce Jones, Bob Walerus, Alan Dashen, John Schwager, Amy Kwan, Mitra Ehsan, and Chuck Nelson) for their active and direct participation in the development and preparation of the City of Clyde Hill's 2020 Budget. It is through the efforts of these citizens that the City of Clyde Hill has consistently been able to provide exceptional public services and facilities to its citizens while maintaining the highest degree of fiscal responsibility.

**Budget Background.**
The goal for the 2020 Budget process was to develop a balanced budget that maintained the current level of essential services and facilities that the citizens of Clyde Hill rightfully expect. With policy direction from the City Council, this goal has been met in this budget. Unfortunately, the balancing of the budget is being partially achieved through the use of reserves accumulated over the last decade. The question to be deliberated by the City Council is what amount of reserves are to be used and what amount of unutilized and previously banked (reserved for future use) property taxes are to be used.

In 2019, by keeping expenditures down while experiencing redevelopment of the Clyde Hill Elementary School along with continued strong residential development the City is expected to experience a surplus. The expected redevelopment by Bellevue Christian School failed to move forward in 2019. To help manage the Budget, cost increases have again been held to a minimum and in several cases reduced.

Although the City of Clyde Hill is a small residential community consisting of about 3,000 people and 1,100 homes, it is still charged with providing essential services to its citizens, including administrative, police, fire, public works, building, code enforcement, streets and adjunct services that the City must accomplish within significant restrictions.

Given the residential nature of the community, the City does not have a diversified tax base and has limited revenue sources from which to deliver the services it is charged to provide. Approximately 20% of the City’s revenue is derived from property taxes. However, for each dollar in property taxes paid in the aggregate by its citizens, the City
receives less than five cents. Over ninety-five cents of every property tax dollar goes to other jurisdictions over which the City has no control or say.

The City of Clyde Hill derives the remainder of its revenue from a combination of sources such as sales tax, development revenue, investment income, fines, wireless communication facility leases, utility and franchise taxes and police and contract services provided to other communities. The City’s ability to increase revenue from any one or all of these sources is limited by legality, practicality and by basic fairness.

**Long-Term Considerations.**

The City of Clyde Hill will need to deal with a structural issue revolving around the fact that expenditures are growing faster than revenues over the long term. A perfect example of this is that property taxes are allowed to grow only 1% per year while the local Consumer Price Index (CPI-W) tends to grow faster. Last year CPI-W grew at a rate of 1.7%. Salaries and many contracts are linked to CPI-W. The cost of construction activity and capital maintenance tends to grow even faster.

Staff has recommended that Councilmembers work with staff and the community to develop a strategy to deal with this situation long-term.

The City of Clyde Hill has been and will continue to be fiscally responsible in its budget policies and sound in its practices. It is because of the sound financial and fiscal decisions made that the City is able to maintain the level of essential services and facilities its citizens have come to expect.
The cyclical nature of construction activity and the local economy results in fluctuating development revenues. Since 2011, the City has seen increasingly more homes sold resulting in new and remodeled home projects. City finances have benefitted from this favorable trend and school redevelopment projects. The school related revenue has allowed us to build reserves rather than expend reserves. It is critical that future development be closely monitored to assure sound budgeting in future years.

The Mayor, Council and Staff have steadfastly monitored key City economic indicators. In 2009 the Staff developed an extensive monitoring program with checkpoints throughout the year. This successful monitoring and reporting process will continue in 2020. This process provides the Mayor, City Council and Staff the necessary information to avoid financial surprises and to implement best financial practices.

**2020 Budget**

The 2020 Budget anticipates a total revenue of $5,462,044 and total expenditures of $8,200,000. The difference between revenue and expenditures is financed from strategic reserves, existing fund balances and an anticipated 2019 surplus in the General Fund. The City anticipates that the General Fund will have a total revenue of $4,312,344 and total expenditures of $4,453,600.

Total General Fund revenues are anticipated to decrease by 16% from the 2019 Budget. Likewise, total General Fund expenditures are expected to decrease by 0.1%. The following highlights the major revenue trends included in the 2020 Budget:

1. **Development Revenue** is projected to decrease by $602,000 compared to 2019. What must be emphasized is that we will only see residential development in 2020. The planned redevelopment of Bellevue Christian School has been put on hold.

2. **Sales Tax** is projected to decrease by $322,000 from 2019. As was the case with respect to development revenue, the falloff is attributed to the completed construction of the new schools.

3. Given the operating deficit for the 2020 budget, staff recommended that Council take the banked property tax and the allowed 1%. Council determined that there were sufficient resources to cover the shortfall and, secondly, we would, based on historical practice, manage the budget to eliminate any operating deficit. The operating deficit ($331K) will be covered by the 2019 operating surplus.

4. Included in the budget is a small benefit increase for non-union employees related to vision insurance coverage. This benefit was negotiated with the police union for 2017. It has been the city’s practice to make sure non-represented employees are treated equitably with represented staff.
5. We have budgeted for the potential School Resource Officer (SRO). It is budgeted as being revenue neutral given that the costs are intended to be covered by Bellevue School District and Bellevue Christian School. We are still in discussions with those entities.

6. Due to increasingly lower interest rates, it is expected that investment income will be $15,000 less than was budgeted in 2019.

Of note is that to control costs over the past decade, multiple years of cost cutting and cost containment measures have been used to maintain expenditures. This will continue.

**City of Clyde Hill Services.**
Within the 2020 Budget, about 76% of all operating expenditures will fund two major City functions: public safety and public works.

The Clyde Hill Police Department will continue to provide community police service to the City of Clyde Hill and contract services to the Town of Yarrow Point. The Police budget for 2020 is $1,801,415, of which the Town of Yarrow Point will pay a proportionate share of 25%. The Police budget represents about 40% of all General Fund expenditures. The staff of the City’s Police Department is fully trained with an authorized (and currently employs) staff of seven officers, two supervisors and a records manager. An 8th SRO position is budgeted, but not yet authorized as mentioned previously.
The City of Clyde Hill will continue to contract with the City of Bellevue for Fire Protection and Emergency Medical Service. The City will pay $698,000 to the City of Bellevue for these services in 2020, a 1.2% decrease from 2019. This service represents 16% of the City of Clyde Hill’s General Fund expenditures and includes assistance in emergency preparedness and hazardous material response.

The City of Clyde Hill’s Public Works Department’s budget for 2020 is $880,925 which represents 20% of the City’s General Fund expenditures. The Public Works Department’s responsibilities include the construction and maintenance of roads and storm drains, parks and right-of-way areas, development plan check review, approval and building inspection services. The Public Works Department staff has six full-time employees who are charged with the on-going maintenance of the City’s infrastructure, as well as the coordination of many special and capital projects.

The remainder of the 2020 Budget is allocated to legal, accounting, audit, insurance, elections, administrative and support costs for the entire City. The City staff, throughout the year, actively supports the work of the Hearing Examiner (which in 2018 replaced the Board of Adjustment), Planning Commission, Civil Service Commission and the City Council. The City Administrator and Mayor are regularly in communication with surrounding communities and make a special effort to cooperate closely with the other Points Communities on regional issues of concern. These Administrative and Support Service Expenses are budgeted at $1,073,260 which represents 24% of the General Fund expenditures. This is down 2% from 2019.

The Capital Improvements portion of the City budget includes various road, storm, sidewalk and other community projects. The 2020 Capital Budget’s largest expenditure is $700,000 for the roadway overlay program. In addition to this project, there is one more noteworthy capital projects planned for 2020 that:

- $470,000 for various stormwater-related projects

The Projects Fund budget for 2020 incorporates a combination of Special Projects and Equipment that includes partial funding of a Facilities Master Plan ($1,985,000), the City’s Traffic Management Program ($30,000) and redevelopment of the City’s website ($50,000).

Financial Outlook.
The City’s 2020 Budget continues to be revenue conservative and expenditure frugal. The Budget is balanced. There is a budgeted deficit. As we have seen in the recent past, the Reserve Fund continues to be the City’s most reliable tool to manage short-term budget imbalances and provide a bridge to solid financial footing.

Continued strategic decisions are necessary to keep the City on firm financial footing. Other developments adjacent and integral to City Hall have prompted the need for the City to work on its Facilities Master Plan in 2020. This Plan will set the long-term path for funding some expensive projects. In addition to completing this Plan, the staff,
Mayor and Council will continue to monitor all expenditures and development revenues in 2020 to make sure there are no negative surprises.

The City is fortunate to be able to take advantage of cuts in expenditures and a healthy amount of development revenue. In the years to come, the City must continue to carefully monitor the financial health of the City and make adjustments where and when necessary.

The citizens of the City of Clyde Hill are urged to be informed and knowledgeable about the fiscal policies and practices of the City and about financial and economic factors that impact the City. By acting together, we, the citizens, the Citizen Budget Advisory Committee, the Mayor, the City Council and the staff will continue to assure the financial well-being of the City of Clyde Hill.
2020 STAFF FINAL BUDGET OVERVIEW
City of Clyde Hill, Washington

BACKGROUND

The goal of the 2020 Budget process was to deliver to Clyde Hill Citizens a balanced budget that maintains the current level of essential services that are expected by our residents. A further requirement is that city staff deliver good value and provide responsible stewardship of the taxpayer resources entrusted to our care.

The City has been fiscally responsible and has prudently built reserves to utilize when needed. The City intends to draw upon its 2019 actual operating surplus of $548,241 in 2020 to balance its $255,822 operating budget deficit. The City remains in good financial condition with a projected ending fund balance of almost $7.5 million.

Although the City of Clyde Hill is a small residential community, with about 3,000 citizens and 1,100 homes, it is still charged with providing essential governmental services to its citizens, including police, fire, public works and streets, building, code enforcement, storm water management and adjunct and related services. Fire and emergency medical services are provided via a contract with the City of Bellevue.

The residential nature of our city severely restricts the revenue coming into the City, both in type of revenue and the amount. Most cities have a more balanced tax base, with the ideal blend of property taxes, sales taxes, business and occupation taxes, utility taxes and additional miscellaneous sources such as development revenue and other fees.

Clyde Hill collects its revenue from a diverse hodgepodge of sources. Development revenue is a major source of revenue for the city which differentiates this city from the norm. Property tax while stable doesn’t provide a wide base at 24% of the General Fund’s revenue. Sales tax is derived from construction activity taking place in the City as well as through products and services delivered to our citizens. The City has almost no commercial retail base to augment the sales tax received. A myriad of other revenue sources includes facility leases for wireless communication, utility and franchise fees, and police service and other services provided to other adjoining communities. The City's ability to increase or grow this revenue from any or all of these sources is limited by statute, practicality and fairness.

After several years of realized revenue from the redevelopment of Bellevue School System schools (Chinook Middle School and Clyde Hill Elementary School) we are reentering a more normal fiscal environment that will encompass primarily residential redevelopment. There are two major sources of revenue that are derived from development activities. These are permit fees and inspection services along with our share of sales tax that comes from materials being delivered to the site. If a property changes hands, the City receives a third type of revenue, Real Estate Excise Tax
(REET) that is restricted in its use, primarily toward capital needs. The prior revenue types mentioned are not restricted and may be used to fund general government.

One of the problematic conditions facing local governments in Washington State is that property taxes rise more slowly than expenditures. This is particularly evident for our neighboring City of Medina, who asked their citizens for a levy lid lift, so that property taxes may be raised beyond the legally restricted 1% maximum growth rate for property tax collections. Its citizens approved the levy lid lift by a narrow margin in November of 2019.

In comparison, Clyde Hill has not taken the allowed 1% growth in property taxes for 9 years and has not taken the allowed new construction component since 2016, primarily through prudent expenditures and revenue from the rebuilding of the Middle and Elementary Schools.

Staff recommends that we devote time and energy in 2020 to further study and assess our revenues/expenditures tensions and further develop long-term strategies tailored to the needs of Clyde Hill.

**BUDGET FOCUS**

The focus on the 2020 Budget will be to continue to manage expenditures while utilizing a continuing wave of strong residential development. The 2020 Budget focuses on providing essential services in an efficient manner.
Revenue Big Picture.

Clyde Hill’s most recent economic picture has been very positive because of a high amount of residential development, mostly from new spec homes. This positive picture is expected to continue at least through 2020. The planned rebuilding of the first phase of the Bellevue Christian school anticipated to start in 2019 never materialized due to a reassessment of the school’s fundraising abilities. The reconstruction was expected to continue into 2020. This activity has not been included in the 2020 budget.

Since 2011, an increase in homes sold/purchased has resulted in new homes and remodeling projects. This activity generated a higher amount of actual development over what was conservatively predicted in 2011 through 2019. That’s good news because in Clyde Hill, development is what drives the City’s local economy and allows for a balanced budget. In 2012, the $40.5M Chinook Middle School project provided the City with a one-time infusion of revenue that helped pull the City out of the recession. The redevelopment of the Clyde Hill Elementary School in 2018/19 pushed development revenues into record territory. New home construction is projected to continue its 20-year record high pace. A continued financial challenge will be to monitor and project just how long this high level of development will continue and then begins to cycle down.

A shortage of noteworthy growth in other operating revenues should continue to keep us cautious as the City increases its reliance on development revenues to balance the budget.

Expenditure Big Picture.

On the operating expenditure side, the picture is one of meeting the needs and expectations of our citizens in an efficient and cost effective manner.

In 2011, negotiations to extend the Fire/EMS services contract with Bellevue resulted in substantial cost reductions enjoyed for seven years. With Bellevue’s passage of a $140M capital program to upgrade its fire facilities, the two cities completed negotiations for another fire/EMS contract that reduced the potential cost implications of these capital projects. Bellevue is planning on reconstructing Fire Station #5 (located next to Clyde Hill City Hall) in the next few years. Given the uncertainty of timing, this has not been included in the 2020 budget. The fire funding formula was beneficial to Clyde Hill in that the cost increases seen system-wide spared our City due to the fact the other cities involved in the contract experienced growth in population and calls for service that offset any cost increases to Clyde Hill. Our costs actually went down by $8,650 for 2020.

Since the Recession, City operating expenditures have been continually managed to help survive stagnant revenues going forward. This has been achieved with the help of relatively low inflation as well as multiple cost cutting and cost containment measures throughout the organization.
The 2020 Operating Budget has only a few noteworthy material items. One notable item is within the Police Department Budget. The city budgeted for a potential hiring and deployment of a School Resource Officer (SRO) that would be paid for by the Bellevue School System and Bellevue Christian School. It is anticipated that the cost would be split by those two entities. An agreement has not yet been reached.

The 2020 Capital Budget has resources allocated to complete the delayed storm drainage improvements planned for Aqua Vista’s pipe relining. This was delayed due to received bids being too expensive. A decision was made to re-bid the project prior to construction season and look to value engineer it as well. A 2020 Street Overlay Project (92nd Street from NE 24th St to Points Drive) was included as well as other scheduled smaller street segments.

**BUDGET PROCESS**

Traditionally we have described the Clyde Hill budget process like an overall "Business Plan." An adjacent sheet describes the elements of Clyde Hill's business plan: 1) Target Issues are reflected in a one year Operating Budget; 2) a six-year Capital Improvements Budget is developed to address the City's major equipment and infrastructure needs as well as other special projects; and 3) Future Projections of the City's finances are developed to help define a range of future expectations that can
assist in the development of both short and longer-term Financial Strategies and Financial Policies.

Continued work is necessary to keep items current and to plan based on assessing ever-changing conditions of the City’s external and internal environment. We look at financial trends impacting the City that staff highlighted through our Financial Condition Monitoring System analysis. The Council annually reviews and periodically revises a set of financial policy statements to help guide the staff on the current financial themes of the Mayor and Council.

**TARGET ISSUES**

A list of 2020 Target Issues was included as part of the City's 2020 Budget to represent the major goals to accomplish in 2020. The implementation of these target issues can be accomplished within the resources of the proposed budget.

**HIGHLIGHTS OF THE 2020 BUDGET**

To help understand the 2020 Budget, the following are some of the "more interesting" budget items and issues.

**General Fund Revenues.**

The 2020 General Fund Revenues are projected to decrease by 16.3% or $814,622 when compared to the 2019 Budget.

The most noteworthy revenue changes in 2020 comes from expected decreases in sales taxes, building permits and plan check fees. Those changes from 2019's Budget are decreases of $322,000, $400,000 and $197,000, respectively. These three revenue sources equals a combined decrease of $919,000. There continues to be a relatively hot residential development market. We are expecting some cooling of that market compared to the last several years. Last year was highlighted by the completion of the Clyde Hill Elementary School reconstruction project. Revenue from that source is complete. The following is an overview of the major revenue trends or issues included in the 2020 Budget:

- **2020 Residential Re-Development** is expected to continue at a strong pace. Based on developer and resident activity at the front counter, the staff conservatively estimates that 13 new homes will be constructed in 2020 at an average cost of about $2.4M. This will result in a total residential development value of about $38M including remodels, which is a significant amount for Clyde Hill and a little less than what was expected in 2019 ($40.1M). As previously mentioned, construction within the City impacts the budget through revenue from the cost of permits and plan check fees and also through retail sales taxes from construction.
Utility Taxes & Franchise Fees collectively are expected to decrease by $24,100 due to rate and usage changes...each utility has its own story. Most noteworthy is a downward trend in Cellular and Cable TV taxes. We believe this is due to competitive rate setting/decreasing of cellular costs and more people cutting the cable TV cord. The City receives no utility taxes from Internet services or Internet service providers;

Sales Tax is projected to decrease by $322,000 in 2020. Most of the City’s sales tax comes from construction projects. The sales tax derived from the Clyde Hill Elementary School project has ended.

The budget calls for continued Property Tax relief resulting in the “banking” of the allowable increases not taken. The Budget amount does not include the allowed 1.0% property tax increase to the general levy nor does it include the taxable value of new construction amount ($23,904) normally allowed. Because the Council has not increased taxes by the allowed 1% since 2012 and deferred the new construction levy since 2016, the City will have about $199,100 in banked property tax capacity in 2020. This aggregate banked capacity may be used by the Council in future years, however the compounding effect is lost.

Investment Income is budgeted to be lower in 2020 by $15,000 over what was budgeted in 2019. Staff anticipates modest short-term interest rate declines during the year. The City’s investments in the Local Government Investment Pool (LGIP) will mirror the direction of the short-term fed funds rate.

Fines & Forfeitures are projected to decrease by $17,500. The projected decrease stems from the success of the City’s new speed radar signs slowing down traffic and better adherence to the speed limits.

General Fund Expenditures.

Total General Fund Costs are projected to remain flat. There is an actual decrease of .1% or $6,625 below the 2019 Budget. The Budget was developed using the same philosophy adopted in previous budgets – maintain current service levels and hold the line on costs when possible.

Operating costs can be viewed in three major pieces:

- People Costs (Salaries and Benefits) (64%)
- Fire/EMS Services (16%)
- Everything Else to Support the City (20%)

Changes to salaries and benefits, People Costs, on an account and departmental basis are summarized on an attached sheet.

- Salaries are influenced by the collective bargaining agreement with the Police Officer’s union. An officer’s salary increase is largely determined by changes to their grade step, which can be as high as 5% from one year to the next;
- The City/union have a current collective bargaining agreement through 2020;
- Salaries are pegged on the June-to-June CPI-W for the Seattle area;
- City employee wages are budgeted to reflect the CPI...also included are adjustments to keep the City competitive in its labor market.
- Costs of a potential SRO, subject to an agreement with the schools as mentioned.

Total City Personnel Benefits of $919,400 increased by $14,900 or 1.7%. Premium rates for the City’s medical insurance provider will once again increase. In 2018, the City was required by its provider to change its medical plan to one that addressed the potential for a “Cadillac tax.” This new policy slightly reduced the benefits and increased the cost sharing. The reduction in plan benefits also reduced the premiums.

This is the ninth year the City received a WellCity award from the Association of Washington Cities. The program was developed to help guide the staff toward healthy ways to decrease the need for future medical insurance costs. Besides having a healthy aware staff, the extra bonus for the City is that it receives a 2% reduction in its medical premiums!

To help control spiraling medical costs, this is the eighth year the City Staff has been asked to assume 10% of their medical premiums for themselves and their dependents. This helps to control about $30k in previous City costs. Beginning in 2016, Police Officers were asked to pay 10% of their medical premiums as well.

Clyde Hill contracts with the City of Bellevue for Fire/EMS services. These Fire/EMS Costs for the City’s services contract was renegotiated in 2011 and included a new formula for dividing up the cost for these services that resulted in substantial cost reductions. In 2018, Bellevue & Clyde Hill renegotiated this contract to account for Bellevue’s $140M capital project levy increase. The revised contract will mean a 2020 cost decrease for these services of $8,650 or 1.2%.

As for All Other Operating Accounts, since 2007 the staff has implemented a number of operating budget cuts. The staff has again taken a look at all expenditures and made additional adjustments or once again has not changed amounts when possible.

There are only a few “non-people” operating accounts that are materially noteworthy (+/- $10k) in the 2020 Budget:

- $96,200 reduction in personnel costs due to the retirement of the previous City Administrator with 2019 associated costs as required;
$18,000 increase in IT costs for improvements/upgrades and operational changes to protect against cyber-attacks;
$157,500 increase in police salary and benefits due in large part to the potential SRO;
$20,000 increase in police operating supplies to better reflect usage;
$17,895 decrease on NORCOM (Police Dispatch) costs based on the funding model and use of reserves;
$10,000 decrease in jail costs based on historical usage;
$50,000 reduction in outside plan review assistance not needed;
$10,000 reduction in Professional Engineering Services due to the timing of projects;
$10,000 reduction in the Urban Forestry Program based on usage;
$11,000 increase in parks improvements for repair of tennis courts.

The following Proposed Transfers from the General Fund ($75,300) are budgeted to go into different departments of the Projects Fund for a variety of projects:

- Transfer into the Housing Rental Department ($10,300) to help fund ARCH;
- Transfer into the Parks Department ($20,000) to help fund the Summer Celebration;
- Transfer into the Grants Department ($20,000) to fund NPDES costs; and
- Transfer into the PW and Admin Equipment Replacement Program ($25,000) to help fund the City’s equipment replacement program.

RESERVE FUND

- There are no expenditures included in the Reserve Fund.

PROJECTS FUND

The Projects Fund was developed to help segregate and keep track of the more restricted City revenue sources so they can be paired up with allowable expenditures. Within the fund there are currently seven departments.

Criminal Justice Department

Expenditures within the Criminal Justice Department were previously consolidated into four elements. However, a re-organization of this department became necessary in 2014 to better manage all the different activities. In 2009, some accounts were shifted from the General Fund into the Criminal Justice Department as a way to reduce operating costs and account for the increased flexibility of this Department’s main revenue sources. Expenditures are budgeted to increase by about $33k in aggregate. Two noteworthy account changes relate to a $28k increase due to a planned purchase of a police vehicle, a $5k increase to the training account to reflect a big departmental emphasis. Yarrow Point contributes about 25% towards expenses in this Department.
Grants Department.

The Grants Department was established to account for specialized grants received by the City. Since 2010, this department has played an important role in helping to balance the operating budget by accounting for grants the City received from the State to help meet its obligations and mandates relating to the National Pollution Discharge Elimination System (NPDES) municipal stormwater permit program.

In 2010 the City shifted some of its storm drain maintenance and street sweeping operating accounts to this department but has shifted them back in 2019.

Equipment Replacement Department.

The City’s equipment replacement program has been working well for over 19 years. The main goal of the program is to account for and smooth out major equipment purchases to better manage these larger cost items. The program elements and schedule for future replacement items are detailed in a subsequent section of the budget packet. A deicer and Sander are planned to be purchased by Public Works to replace aging equipment.

Housing Rental Department.

The Housing Rental Department was established in 1995 to keep track of the finances related to the home next to the fire station. After using the home as a temporary City Hall, the City began to rent the home and receives credit from ARCH (A Regional Coalition of Housing) for providing lower income housing. The budget proposes to rent the 800 square foot home next year for $950/month, less leasehold taxes paid to the State. A $4k expenditure is budgeted to cover unforeseen repairs and maintenance.

An account in the department is used to track the City’s pledge to ARCH to provide affordable housing on the Eastside. An appropriation of $17,800 is budgeted for 2020 that would authorize funding towards affordable housing on the Eastside on a future ARCH Trust Fund project. The need for additional affordable housing has outpaced ARCH’s funding.

Parks & Department.

The Community Celebration is included within this Department. Initially, a citizen’s committee solicited contributions and managed the celebration. Staff currently coordinates this event which costs about $20k each year.

Celebration and Pumpkin Display activities continue to be very popular. The Parade of Pumpkins event is also funded from this source at a cost of about $500.
Special Projects Department.

The Special Projects Department accounts for the following projects that are in the 2019 Budget:

<table>

</tbody>
</table>

**Facilities Master Plan.** In 2018 the Council budgeted for a feasibility/assessment project to analyze the buildings, the opportunities, and evaluate the options to help the City determine its best approach with the redevelopment of Bellevue’s Fire Station #5. The City hired TCA to perform the assessment. That analysis served as a springboard for further discussion with Bellevue and the Bellevue School District. Ultimately, TCA will continue to help the staff complete a City Facilities Plan to address all the associated issues for further Council discussion.

**IT Related Projects.** It’s very important to keep the City’s computer system current, maintained, and safe/protected. The computer makes up the basic tools for the entire staff to do its job and provide the services expected by the community. The 2020 Budget includes funding ($50k) to enhance and update the City’s Website, which has become a relied upon source for City information.

**Traffic & Speed Management Program.** This project includes $30k for ongoing traffic engineering services from a traffic consultant as well as funding for the possible addition of two new speed signs or other projects deemed appropriate by the Council Traffic Subcommittee in their periodic review of the City’s Traffic Management Plan.

**SR-520 Lid Maintenance.** Along with the road improvements to SR-520 the Points cities/towns received three lids: 1) Evergreen Point; 2) 84th; and 3) 92nd. These lids were developed with transportation facilities, passive recreation areas and an extensive network of both regional and Points Loop Trail facilities. The State’s contractor was responsible to maintain these facilities until May 2017. The State has also worked out a
deal with the County to maintain the transportation facilities. Funding is included in the 2020 Budget ($25k) to help complete discussions with the State and agree on responsibilities, standards and funding for the maintenance of the remaining portions of the lids.

The **Mapping/GIS System Project** ($17k) represents continued funding for costs associated with upgrading the City’s base maps, integrate new traffic count/speed data, developing a new original grade map, updating the road permit map, and adding layers to the City’s current mapping system. The work is done through the City’s GIS consultant. With a new public works management tool, this project will help to map associated information.

The **Regional Advisory Services** account ($25k) represents funding for costs associated with addressing regional matters of concern or interest to the Clyde Hill community. This account was established chiefly to address the SR-520 project. We have used this account to fund a WASPC Police Study with Medina, to account for a joint traffic study with the Points Communities, to purchase the assistance of a noise engineer in conjunction with the SR-520 project, and for a property appraisal.

The purpose of continuing this special project is to have a budgeted source of funding for other issues of concern that may not be known now or that surely will pop up in the future. Some potential areas of assistance could relate to legislative lobbying or follow-up joint traffic concerns. As was done in previous years, money from this account would not be used without the consent and approval of the Council.

**Records Management Project.** For the past few years the City has allocated resources to manage the proliferation of paper within the organization. Great progress has been made in these efforts. The new records management software has other opportunities to help City operations. This project ($25k) will continue to work with the records management consultants to augment and enhance the City’s benefits of its new records management software.

Historically the City has allocated funds for minor purchases related to the City’s Safety Committee, its Wellness Committee, and its on-going Emergency Preparedness efforts.

**Other Smaller Projects** funded by the Special Projects Department includes the Lake Washington Watershed Study (WRIA 8), who charges the City an annual amount to account for our contracted obligations related to the City’s Endangered Species Act commitments. In addition, the Department of Ecology charges the City an annual permit fee for the right to continue to use our municipal storm water system and to fund their efforts to regulate us. The combined cost for these related programs is $11.5k.

The 2020 Budget also has budgeted $1k to help maintain the **Wetherill Nature Preserve.**
Funding for the City’s Arbor Day festivities is a separate item because of the way in which we receive partial reimbursement from the King Conservation District. In 2020, $3k is budgeted to account for this highly successful event involving a celebration with about 100 5th graders.

Capital Projects Department.

The City’s Capital Improvements Plan is a combination of projects reflecting the City’s road, stormwater, and sidewalk systems. In June, the Council reviews a condition rating of every road in Clyde Hill and approves a ranking of road and sidewalk improvements for the next six years. A few years ago, the City’s Comprehensive Storm Water Management Study was updated and is used as a guide for future improvements to the City’s storm water system.

The Capital Projects Department implements the City’s Road Overlay, Storm, Sewer, and Sidewalk Programs. The major on-going funding source for these projects comes from Real Estate Excise Taxes (REET). REET revenue is generated at the time a home is sold in Clyde Hill. By law, the use of these funds can only be used for capital projects and cannot be used to balance the operating budget in the General Fund. The Capital Projects Department is cautiously managed to find the right balance between developing and maintaining the City’s infrastructure with sensitivity for funding sustainability. According to Financial Policy #10, a City goal is to address the capital needs of the City while maintaining a minimum balance of $1M in the Capital Projects Department for larger currently unanticipated needs.

The following is a brief overview of the projects that are part of the 2020 Budget.

Road Projects:

- 2020 Road Overlay Project – $700k. The 2020 capital budget includes $700k for the street overlay. The major segment to be addressed is 92nd Avenue NE from NE 24th to Points Drive NE. A few other scattered segments will also be addressed.

- Continued funding for minor Road Maintenance/Patching is also funded to include crack sealing/patching ($30k) and repair of the City Hall back parking lot/curbs ($25k).

Stormwater Projects:

- Miscellaneous Stormwater Projects – $470k. The City’s Comprehensive Stormwater Management and Operation Study was recently updated. The Plan calls out a number of projects for the City to consider and an extensive operations schedule. The major project is a relining of the failing pipes in the aqua Vista neighborhood. A secondary project entails partnering with the
Overlake Golf & Country Club to share in the cost of dredging several of their ponds which receive stormwater runoff from Clyde Hill.

Parks Projects:

- **Tennis Courts Resurfacing – $43k.** This project was proposed for 2020 as a grant eligible project. Funding from the City’s share of the King County Parks Levy is the funding source.

Sidewalk Projects:

- **84th Sidewalk Project – $0k.** This project was proposed for 2020 as a grant eligible project. The Transportation Improvement Board (TIB) didn’t provide funding for this effort.

Capital Asset Maintenance:

- There always seems to be a few trouble spots in the City’s stormwater system or patches in the road that could use a smaller repair to correct a problem. This account ($75k) allows for funding of any on-going and unexpected problems for these purposes.
Quick Overview of the 2020 Budget Numbers

City of Clyde Hill, Washington

Fiscal Year 2020

The culmination of the annual budget process that beings in September of each year is at the City Council’s December regular meeting with the adoption of the next year’s budget. The adopted budget gives City staff the authority to make expenditures up to the appropriated amounts for each of the City’s three managerial funds.

Prior to the December budget adoption meeting, the City Council will have met two times with the City’s Budget Advisory Committee, City staff, and any interested residents wishing to participate in the budget process. The Budget Advisory Committee is made up of between five to twelve residents expressing an interest and commitment to helping set the priorities for the City over the next few years. Budget Advisory Committee members bring a unique perspective to the budget process with their experiences in the business world and raising a family here in Clyde Hill.

The next few pages of the annual budget document will give the reader a quick overview of the numbers involved in the 2020 Budget. The following section include:

- Summary of major revenues and expenditures for all funds combined since 2015, as well as other financing sources and uses, to provide an overview of the total resources budgeted by the City in relation to past experience;
- Summary of major revenues and expenditures for each of the City’s three managerial funds, as well as other financing sources and uses, to provide an overview by fund specific to the 2020 Budget;
- Pie charts showing 2020 Budget Operating Revenue compared to 2010 Actual Operating Revenue with the dollar amounts and the percent of the total revenues; and
- Pie charts showing the 2020 Budget Operating Expenditures compared to 2010 Actual Operating Expenditures with the dollar amounts and the percent of the total expenditures.

Please contact the City’s Finance Manager, Dean Rohla, directly at 425.453.7800 or dean@clydehill.org if you have any further questions regarding the City’s budget numbers for the 2020 fiscal year.

**More Information:**

1) As allowed by the State Auditor’s Office for smaller cities in the State of Washington, the City of Clyde Hill uses the cash-basis of accounting & budgeting which is a departure from generally accepted accounting principles (GAAP). 2) The term "Fund Balance" as used by the City of Clyde Hill means excess of money available for spending over appropriated expenditures.

**Explanations for changes in Fund & Department Balances over 10% and $10,000:**

**General Fund & Reserve Fund (Managerial subfund)** - The 2020 Operating fund budget deficit was authorized by Council to draw down beginning fund balance rather than raise property taxes.

**Projects Fund** - consists of Special Revenue and Capital Projects funds highlighted in the following Departments:

**Criminal Justice Department** - The addition of a 5th Police Fleet vehicle and additional equipment, training, and accreditation costs comprise the $60,5K deficit.

**Grants Department** - operating capital moved into the department to cover cash flow issues prior to grant reimbursement.

**Equipment Replacement Department** - Does not exceed 10%. Per Policy Statement #8, the City maintains an Equipment Replacement Schedule that is updated each budget to "Provide for the orderly and appropriate replacement of City equipment." 2020 costs include a deicer and sander for winter weather.

**Housing Department** - This department continues to account for the City's commitment to help out with low income housing on the Eastside (ARCH) & maintenance of the 1 city rental home next to the Fire Station. New in 2020 is King County's repurposing of a portion of sales tax collection to benefit the aforementioned ARCH program.

**Parks Department** - Does not exceed 10%. 2020 budget of $21,000 funds the Annual City Celebration and "Parade of Pumpkins" events. It is funded by a transfer from the GF.

**Special Projects Department** - As special projects have been approved by the City Council over the past few years, money has been set aside in this Department to better track and pay for them. For 2020, 14 separate line item projects are being accounted for here with the 2 projects of note: 1) $1,985,000 - "City Facilities Plan" and 2) $50,000 to update the City website.

**Capital Projects Department** - Does not exceed 10%. 2020's two largest components include overlays and storm drainage improvements.
Employee Authorized Position Count  
City of Clyde Hill, Washington  
As of February 24, 2020

**Purpose:** To account for all employee positions for prior years, the current year and the new budget year.

2020 CAPITAL FACILITIES PLAN

CITY OF CLYDE HILL, WASHINGTON

The City of Clyde Hill is responsible for providing facilities and services that are needed by the residents and businesses of the City for a safe, secure and efficient environment within which to conduct their affairs. These services and facilities include, but are not limited to: police service, fire protection, building and land use management services, street and storm sewer service, parks and recreation. Often the availability and quality of these services are a primary reason for families to choose a particular community over another. As such, the adequacy of these services and the related facilities greatly influence the quality and character of a particular community.

Since these services cannot be delivered without capital facilities, the appropriate supply of capital facilities must be adequate to meet future service requirements. This plan seeks to ensure such a supply by planning ahead to meet these future needs.

Planning to meet the future needs of a community is a complex task. First, it requires an understanding of the necessary and desired scope of future needs for the community. Second, it requires an accurate assessment of the various types of capital facilities that could be provided, and the need to identify the most effective and efficient array of facilities to support the needed services. Finally, it must address how these facilities will be financed.

Understanding what the future needs of the community will be is accomplished through the development of the City's Comprehensive Plan, which provides a framework for the future growth and character vision of the community. Individual plans or studies are used to address the issue of what is needed to provide an effective and efficient service delivery system for the various service elements.

The final aspect of a Capital Facilities Plan addresses the appropriate mix of revenues needed to meet the various elements of the plan. Choosing the most effective array of
facilities considering limited resources and competing demands requires a great deal of policy-making and implementation coordination. Financial planning and implementation of capital facilities cannot be effectively carried out on an annual basis, since their financing requires multi-year commitments of fiscal resources. Because of this, a Capital Facilities Plan is long range in its scope.

Any plan is a tool to aid in decision making. This plan is no exception. Annual budget decisions will be aided by outlining how the needed capital facilities of the future can be successfully provided. The Capital Facilities Plan is not intended to substitute for annual budget decisions, only provide a tool for making those budget decisions.

Since the entire comprehensive planning process, of which facility planning is only a part, is seen in Clyde Hill to be a continuing, evolving process of managing change, this plan, along with the various related plans, will be continually reviewed and updated.

**ELEMENTS OF THE PLAN**

**Expenditure Components**

The Capital Facilities Plan provides a framework to plan for the orderly implementation of capital improvements and facilities directly affecting the City's services and operations. The term capital improvements or facilities are widely used terms having different meanings to different persons. The use of these terms within this plan however, are intended to represent improvements, projects, equipment, facilities or assets of the City that require a financing policy of a longer term character than that which can not be readily afforded by the annual operating budget cycle of the City.

The basic planning policy document of the City is its Comprehensive Plan. The Comprehensive Plan is a series of planning elements that address all aspects of the City's future development and land use. A series of other plans then address in greater detail the development of particular elements within the City. The street system is supported through the City's annual Transportation Improvement Program (TIP) and condition rating survey. The storm sewer system was initially supported through the results of a comprehensive system study that was completed in November 1992 and a Stormwater Improvement Plan (SIP) that was discussed in 1996. The parks & recreation system is guided by the Comprehensive Plan. The criminal justice programs are guided by recommendations from the staff and Council approval. The public facility sections of this plan are supported through the Comprehensive Plan, the Facilities Master Plan, the staff and Council guidelines. The equipment replacement schedule is supported through a detailed equipment replacement schedule that is revised annually and presented to the Council for review.
The following are descriptions of expenditure types within six basic categories: Street system, Storm sewer system, Parks & recreation system, Criminal justice, Public facilities and Other special projects. Six year projections of projects and needs within the following categories are represented in the City's Capital Facilities Plan.

**Street System**

A. Annual Overlay Program - Implementation of the City's road system Transportation Improvement Program (TIP). The TIP is annually updated after a visual analysis and a condition rating survey of all the roads within the City's jurisdiction.

In response to the noticeable increase in cut through traffic due to the new Hwy 520 bridge, the City has formed a committee to study traffic / speed management improvements. Expenditures to support the committee’s work are budgeted in the Special Projects Department of the Projects Fund starting in 2017 through present.

B. Other Street Projects - Represents road related projects besides the annual overlay program such as; traffic calming ideas, curb replacement, safety improvements, guard rails, speed bumps or their removal or extraordinary patching and new roads.

C. Sidewalk/Pedestrian Improvements - Represents costs relating to sidewalk and pedestrian safety or convenience projects within the rights-of-way. Some of these projects relate to safety buttons, additional sidewalks and trails.

**Storm Sewer System**

A. Storm Sewer Improvements - Represents costs for the implementation of the City's comprehensive storm system study and the City's Stormwater Improvement Plan (SIP).

B. Pond Maintenance Projects - Represents pond maintenance and dredging projects for Aqua Vista Lake (Done in conjunction with the homeowners), Clyde Loch (Done in conjunction with the homeowners), and the ponds at the Overlake Golf and Country Club (Accomplished per the settlement agreement with the Club).

C. System Maintenance & Depreciation - Represents larger costs outside the operating budget relating to the repair of the existing system due to age and depreciation.

D. Comprehensive Storm System Study & Analysis - Costs to implement a comprehensive study of the City's storm sewer system.
Parks & Recreation System

A. Park Improvements - Represents costs for the implementation of the City's Comprehensive Plan (relates to the construction of new elements or upgrades to the system).

B. Park Land Purchases - Represents costs relating to the potential purchase of additional park property within the City.

C. Park Maintenance - Represents larger costs outside the operating budget relating to the repair of the existing system due to age and depreciation. Some of these projects might include: Tennis court repair and overlay, park equipment or furniture repair or landscaping.

Criminal Justice Program

A. Equipment - Represents equipment costs that are funded through the Criminal Justice program.

Public Facilities

A. City Hall - Represents costs relating to the extraordinary maintenance of the City Hall (roof, internal and external structure), facility upgrades (sound system, structural improvements), and mechanical replacements (heating/cooling systems).

B. Police Department - Represents costs relating to the extraordinary maintenance of the police department.

C. Public Works Building - Represents costs relating to the extraordinary maintenance of the public works "shop" building. This building also includes the public rest room facilities.

D. Land Purchases - Represents costs relating to the potential purchase of additional public property within the City for future facility use.

Equipment Replacement Schedule

A. Equipment Replacement Schedule - Represents costs to keep track of the City's "major" pieces of equipment and plan for their eventual replacement.

Revenue Components

There are a number of available revenue sources that could potentially be used to fund the expenditure items within the Capital Facilities Plan. These revenue items are summarized below. Additional funding sources such as the property tax, utility tax or
other general purpose revenues located within the General Fund could be used to fund the Capital Facilities Plan but are currently not recommended for this use.

A. Real Estate Excise Taxes - Represents revenues derived from the 1/4 of 1% excise tax on the sale of real estate within the City. Use of these funds is restricted for the implementation of the City's Capital Facilities Plan.

B. Growth Management Real Estate Excise Taxes - Represents revenues derived from an additional 1/4 of 1% excise tax on the sale of real estate within the City. Use of these funds is restricted for any capital purpose identified in a capital improvements plan and local capital improvements, including those listed in RCW 35.43.040.

C. Street Utility Fees - Represents revenues derived from fees generated through the enactment of a street utility. The City does not currently have a street utility. Based on a 1996 Seattle suit, the constitutionality of this revenue source is in question.

D. Storm Water Utility Fees - Represents revenues derived from fees generated through the enactment of a storm water utility. The City does not currently have a storm water utility.

E. Motor Fuel Taxes - Represents revenues derived from the fuel tax on gasoline. In September, 2005, the two gas tax revenues received by the City as state entitlements were combined into the unrestricted gas tax revenue source. This revenue is currently recorded in the General Fund and is being used to fund operating expenses relating to the maintenance of the street system.

The City receives a quarterly payment from the State on a per capita basis. From the booklet issued by Municipal Research & Service Center (MRSC) entitled “2020 Budget Suggestions”, the City is expected to receive gas tax related revenue in 2020 of $21.25 per person living in Clyde Hill. The State Office of Financial Management (OFM) has officially estimated Clyde Hill’s population for State revenue distributions as of April 1, 2019 at 3,055 residents (an increase of 10 over last year).

F. Vehicle License Fees – The City has not received any revenue from this source since January, 2003 due to State Initiative 776. The State Supreme Court has decided that I-776 is constitutional.

Vehicle License Fees represented revenues derived from the July 1991, implementation of King County's additional 1% vehicle license fee. This revenue source was located in the General Fund and was being used to fund operating expenses relating to the maintenance of the street system. Revenues from this source were used for transportation purposes only which may include construction, reconstruction, maintenance, repair and betterment of city streets; including the cost and expense of right-of-way acquisition, installing, maintaining and operating traffic signs and signal lights as well as the
necessary operating, engineering and legal expenses connected with the administration of the City's streets.

G. Connection Fees - Represents revenues derived from fees charged to those who make a connection to the City's storm water system. This is a revenue source that the City does not currently use but can be set up as part of a storm water utility package. Fees should be set to cover the cost of the City inspecting the connection.

H. Developer Impact Fees - Represents developer "contribution" revenues that can only be based on the direct benefit or impact from the developer. These fees can be used for parks and open space development, road or storm system improvements or even for schools, fire or police services.

I. County Road and Street Revenue - Represents revenues derived from the Federal Highway Act through Federal motor fuel taxes. These revenues are distributed to the state and then allocated through a regional process. The City received $15,941 in 1993, approximately $43,000 in 1997 and approximately $23,900 in 1999.

J. Grant Revenues - Represents revenues derived from any Federal or State grant programs. These programs are somewhat scarce, usually have strings attached to them and are highly competitive. The City is able to use its "small city" status to compete effectively where and when appropriate.

The City has participated in the State Department of Ecology’s National Pollutant Discharge Elimination System (NPDES) grant program since 2008. This program is designed to improve water quality from Clyde Hill going into Lake Washington.

K. Local Improvement Districts (LID) - Represent a method of implementing specific improvements by allocating the costs of the project among the benefiting properties. These projects are usually financed through long-term bonds, the repayment of which is mainly from the collection of the assessments from the benefiting properties. This type of financing, if forfeited, does not apply against the utility or the City, because the benefiting properties have funded their own "guarantee" at the time of formation. A utility local improvement district (ULID) is a similar type of financing instrument. The difference between the LID and the ULID is that the ULID is guaranteed by the utility, and many times, the city is also a participant. ULID's normally are used to fund an improvement that is system wide.

L. Bonds - Represents revenues derived from the issuance of bonds. There are a few different types of bonds that are available for our use. Councilmanic general obligation bonds could be approved by the Council for a specific capital project. The statutory bond limit was increased in 1994 to allow for 1.5% of the current overall assessed value of the City (October 7, 2013 assessed value =$1,642,552,168 * 1.5%= $24,638,283). This type of bond allows up front funding for any municipal purpose and pledges future revenues
of the City to pay off the debt. General obligation bonds require a simple majority vote of the people for approval. Current law limits this obligation to 2 1/2% of the current overall assessed value of the City. General obligation bonds require current "users" or residents to pay off the debt during the term of the bond. State law also authorizes an additional 2.5% for parks and open space and another 2.5% for utility projects (2.5% = $41,063,804). Both of these types of bonds are classified as G.O. bonds and therefore require a simple majority vote of the people for approval.

Revenue bonds represent a funding source whose principal and interest are payable exclusively from the earnings of a proprietary operation. Proprietary operations represent governmental services that are supported mainly by rates and user fees, such as a water or sewer utility. There are no statutory limits for the amount of this type of indebtedness, but the bondholders will certainly look at the liquidation of the operation to capitalize their return.

M. Criminal Justice Revenues - Represents revenues that are to be directed toward municipal criminal justice assistance. A number of sources make up the total of this revenue source. One is a direct allocation from the state's general fund that was only offered from the 3rd quarter 1990, through the 2nd quarter of 1991. The City received approximately $7,400 from the state. A second source of Criminal Justice funding is from a portion of the state's motor vehicle excise tax that was prorated on a per capita basis till 1-1-94. Starting in 1994, a new distribution formula was established which resulted in less revenue for Clyde Hill. Because of I-695, parts of this source of revenue were slated to disappear after the 1st quarter of 2000. The State Legislature provided a portion of the lost revenue in 2000 through 2002 and then stopped providing municipal criminal justice assistance altogether. A third source of criminal justice funding comes from King County's .1% sales tax. This money is distributed to the City on a monthly per capita basis, which equates to around $90,000. A fourth source of criminal justice funding is from the Town of Yarrow Point, who shares their funding with Clyde Hill as a contractual obligation for the provision of 24/7 police services.

Criminal justice revenues are not to be used to replace or supplant existing funding. The state auditors provided us with the following guidelines or criteria for the appropriate use of this revenue:

• The total police department budget must not go below the 1989 amount of $476,362 by using criminal justice revenues. In other words, the City must continue to fund the police department budget at or above the 1989 levels.

• At least $200/yr. needs to be spent in the General Fund for the specific purpose of crime prevention or for the DARE program. This $200 represents the City's 1989 funding baseline for these activities. The City must continue to fund these direct criminal justice programs at or above the 1989 levels.
• All revenues are to be used such that they will substantially assist the City's criminal justice system.

Policy Statements and Objectives

The following statements of policy and goals are used to assist and provide guidelines in deciding upon the element of the City’s Capital Facilities Plan.

• Use the Capital Facilities Plan as a means of implementing the Comprehensive Plan.

• Ensure that needed capital improvements are implemented on a timely basis.

• Update and present to the Council a Capital Facility Plan annually to ensure an up-to-date, responsive and coordinated plan.

• Development shall be allowed only when and where all public facilities are adequate, and only when and where such development can be adequately served by essential public services without reducing the quality and level of service elsewhere.

• If adequate facilities are currently unavailable and public funds are not committed to provide such facilities, developers must provide such facilities at their own expense to develop.

• The City should continue to investigate assisting through LID's and latecomer agreements, where possible. Where public funding is available, the City may participate in developer initiated facility extensions or improvements, but only if the improvements benefit the broader public interest, and are in accord with the specific policies and recommendations of the appropriate public facilities plan.

• Preserve and promote those community facilities and programs that are important to the safety, health and social needs of families and children in Clyde Hill.

• Provide a comprehensive parks and open space system that responds to the recreational, cultural, environmental and aesthetic needs and desires of the Clyde Hill community.

• Continue to provide for the effective annual maintenance of the City's street system.

• Recognize through all transportation policies and facilities that pedestrian and bicycle transportation modes are a basic means of circulation and enjoyment.

• Coordinate efforts with the City of Bellevue to assure effective and efficient water and sanitary sewer service to meet the needs of the Clyde Hill community.
• General revenues should be used only to fund projects or equipment that provide a general benefit to the entire community within the general governmental functions of the City.

• The City should consider the full range of financing options available to finance capital facility projects and equipment.

TRENDS, FACTS & FINANCIAL PROJECTIONS
MAJOR REVENUE ASSUMPTIONS, FACTS, AND TRENDS
City of Clyde Hill, Washington

BACKGROUND.
As authorized by the State Auditor’s Office for a city with the population size of Clyde Hill, the City follows the “modified cash basis” of accounting method. This basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. As required by the State Auditor’s Office, the City utilizes a 13th month to capture and record expenditures after the December City Council meeting that are actually paid in January of the following year, but recorded as of December 31st.

To summarize, revenues are recognized when cash is received and expenditures are recognized when cash is paid (modified to consider the 13th month in January). Capital assets and inventory items are recorded as expenditures in the governmental fund purchasing the asset or inventory item. A physical inventory is conducted annually of all inventory items with special attention to “small and attractive” inventory items.

“Modified cash basis” accounting is not considered GAAP for financial reporting purposes although 80% of all governmental entities in the State of Washington use this method of accounting with supervision and training provided by the State Auditor’s Office (SAO).

POPULATION.
The Office of Financial Management (OFM) for Washington State estimates the population for each city in the State as of April 1st. This population estimate is used in the budget process for the following year to determine the amount that can be expected to be received in State shared revenues on a per capita basis. OFM's April 1, 2019 population estimates are based on OFM adjusted Census 2010 values. OFM estimates the population to be 3,055. Worth noting to see how accurate OFM’s population estimates have been in the past, the OFM 2010 population estimate for the City of Clyde Hill was 2,845 and the 2010 census number came in at 2,984 (actual increase of 139 people or 4.9%). Overall, the City of Clyde Hill is “built out” with only a few vacant lots left in the City. As a result, the population trend for Clyde Hill will most likely fluctuate within a narrow band of a few hundred people from this year’s estimate in the years ahead.
REAL PROPERTY TAX.
The King County Assessor’s Office provides information necessary for the City to levy property tax for the 2020 Budget. The City Council traditionally approves the following year’s real property tax levy along with the overall budget at their regular monthly meeting on the second Tuesday of December:

2019 Top Ten City of Clyde Hill Real Property Tax Highlights.
1. Clyde Hill continues with the second lowest property tax rate out of the 39 cities and towns in King County (Hunts Point remains by far the lowest property tax rate due to their high assessed values);

Comparison of 2019 Property Tax Rates for Cities & Towns in King County
2. For the 9th year in a row, the City of Clyde Hill has not taken the allowed 1% property tax increase over the previous year's amount. For the 5th year in a row, the City has also not taken the allowed new construction levy. The City’s “banked capacity” for future needs is currently ~$190,000.

3. In 2020, the City of Clyde Hill will only receive 4.5% of the total property tax dollars paid by Clyde Hill homeowners to help pay for City services (e.g. police, fire, roads, land use regulations, elections, etc.).

![2019 Property Tax Distribution for Clyde Hill, Washington Taxpayers](image)

4. Bellevue Schools will receive 31.8% and State Schools will receive 34.3% of the average Clyde Hill homeowners' total property tax dollars paid in 2020. This represents a 66.1% total of property tax dollars paid by Clyde Hill homeowners going to schools. This represents a significant change in property taxes brought about by the State Legislature’s attempting to resolve the State Supreme Court’s “McCleary Decision” regarded adequate school funding.

5. The Central Puget Sound Regional Transit Authority (RST – aka Sound Transit) appears on Clyde Hill homeowners’ property tax statements for the 4th year in 2020 and represents the 9th taxing jurisdiction that receives City of Clyde Hill property tax dollars.

6. The average home in Clyde Hill valued at ~$2.7M will pay $553 for the Sound Transit property tax representing 2.7% of the total property tax dollars paid in 2020 by City of Clyde Hill homeowners.
7. The average home in Clyde Hill will pay $328 in 2020 property tax to the Port District.

8. There is an inverse relationship between a homeowners’ assessed valuation (AV) and the property tax rate paid (e.g. AV goes up, property tax rate goes down). For 2019, the AV for the average home in Clyde Hill went up 2.4% (estimated) resulting in the property tax rate paid going up by 2.9% from $0.3452 per $1,000 of AV to $0.3477 per $1,000 of AV (estimated).

9. A levy lid lift is a way for a jurisdiction to increase property taxes by more than 1% with a simple majority vote of the residents in that jurisdiction. In 2019, there was one nearby city that attempted a levy lid lift that was somewhat similar in demographics and affluence to Clyde Hill – Medina. Though the vote was close, the levy lid lift passed. More and more pressure on city finances is requiring cities to utilize one of the few tools available to them to increase local revenue.

10. Local School District levies vary significantly around Clyde Hill from a low of $1.71004 per $1,000 of AV on Mercer Island to a high of $3.50644 per $1,000 of AV for Newcastle. Bellevue School District is $2.4782.
SALES TAX.
Clyde Hill receives 0.85% of the 10.00% sales tax paid for goods and services subject to sales tax within the City’s jurisdictional control. The following information was considered when developing the 2019 budget number:

- 2020 Sales Tax from the volatile construction activity component is expected to be $289,754 or 54.9% of the total sales tax;
- 2020 “Base” sales tax (everything except construction) forecasts at $221,881, which is the average of the past four years;
- The Streamlined Sales Tax Law in Washington changed from an origin-based system for local retail sales tax to a destination-based system effective July 1, 2008 had a definite benefit to Clyde Hill. Products purchased and delivered to a Clyde Hill address requires that the local sales tax associated with be sale is credited to the city.

UTILITY TAXES, FRANCHISE FEES, & BUSINESS LICENSES.
Utility taxes and franchise fees are “revenue-based” taxes on the gross receipts collected by the utility service provider from residents of Clyde Hill. We use information learned from discussions with the Clyde Hill utility service providers, a review of their website information, and our historical revenue trend tracking to project the utility service provider’s 2020 gross receipts for the eleven (11) different components making up the utility tax and franchise fee revenue category. Business Licenses are a $25 fee paid to the Washington State Department of Revenue to cover the City’s cost of monitoring business activities in the City and as a way to remind businesses that Clyde Hill is a separate city when remitting their sales taxes to the State.

Utility Tax – Electric.
This is a “revenue-based” tax of 6% on the gross revenue earned by Puget Sound Energy (PSE) for using the City’s Right-of-Way (ROW) to provide electricity services within the City.

Utility Tax – Natural Gas.
This is a “revenue-based” tax of 6% on the gross revenue earned by Puget Sound Energy (PSE) for using the City’s Right-of-Way (ROW) to provide natural gas services within the City.

Utility Tax – Solid Waste.
This is a “revenue-based” tax of 4% on the gross revenue earned by Republic Services (formerly Allied Waste Services of Bellevue) for providing recycling, yard debris, and garbage collection services within the City.
Utility Tax – Cable TV.
This is a “revenue-based” tax of 9% on the gross revenue earned by Comcast Cable for providing cable TV services (not internet) within the City. The following information was taken into consideration:

- Effective on July 1, 2009, the utility tax rate was increased from 4% to 9% to help reduce the projected deficit caused by the “Great Recession” (the utility tax rate was 10% from 1988 through 2004 with a reduction down to 4% in 2005 made possible by the surge in development revenues);
- This revenue source has been falling and is believed to be due to customers “cutting the cord” and getting more entertainment via the internet.

Utility Tax – Local Access Telephone
This is a “revenue-based” tax of 6% on the gross revenue earned by various telecommunication companies for use of the City’s right of way to provide local access telephone services (e.g. CenturyLink) within the City. The following information was taken into consideration:

Utility Tax – Wireless Telephone.
This is a “revenue-based” tax of 6% on the gross revenue earned by various telecommunication companies that provide wireless telephone services within the City. The following information was taken into consideration:

- This revenue source peaked in 2009 at $79,069 and has declined approximately 63% to the 2019 due to lower prices (other cities report this same downward trend).

Franchise Fee – Solid Waste.
This is a “revenue-based” franchise fee of 5.5% on the gross revenue earned by Republic Services (formerly Allied Waste Services of Bellevue) for providing recycling, yard debris, and garbage collection services within the City. The following information was taken into consideration:

- Solid waste hauling contract started April 1, 2015 with a number of changes on how services are provided (e.g. garbage, recycling and organics are picked up weekly; organics bi-weekly during the winter months of December-February);

Franchise Fee – Cable TV.
This is a “revenue-based” tax of 5% on the gross revenue earned by Comcast Cable for providing cable TV services (not internet) within the City. The following information was taken into consideration:

- The franchise fee has been 5.0% since 1988 and started at 3.0% in 1979; and
Franchise Fee – Water Service.
This is a “revenue-based” tax of 9% on the gross revenue earned by the City of Bellevue Utilities Department to use the City’s Right-of-Way (ROW) while providing water services within the City.

Franchise Fee – Sewer Service.
This is a “revenue-based” tax of 9% on the gross revenue earned by the City of Bellevue Utilities Department to use the City’s Right-of-Way (ROW) while providing sanitary sewer services within the City.

Business License Fees.
Business licensing started in Clyde Hill on April 1, 2010 as a way to better inform businesses to pay their sales tax to the City of Clyde Hill when doing business in the City. Prior to city business licenses, some businesses appeared to be confused about what jurisdiction to remit their collected sales taxes to (the City of Bellevue usually benefitted from the confusion).

As a cost saving measure for the State, the State Department of Revenue took over to facilitate this program from the Department of Licensing in early 2011. The City still maintains control over the program by approving each individual license application. The City’s ordinance to enact the business licensing requirement has exemptions such as non-profits, casual sales, and babysitting. Through September, there are over 800 businesses with a license to conduct business in the City of Clyde Hill (fee is $25 annually).

Business licensing is also designed to control parking and noise issues for residents conducting business from their homes. Surprisingly, there are well over 175 businesses in Clyde Hill operating from their home.

DEVELOPMENT REVENUES.
With recent voter approved limits on property tax levy increases, motor vehicle license fees and motor vehicle excise taxes in Washington State, development revenues in the form of building permits and plan check fees have become an increasingly significant revenue source for the City. With fewer revenue options open to the city, balancing the annual budget without a strong local housing market becomes more difficult for a small residential community like the City of Clyde Hill.

Building Permits.
This revenue source represents the permit fee required to build a new home or for a remodeling project (including schools) based on the valuation of the project. The following information was considered:

- This volatile revenue category has always been forecasted by the City in a conservative way. For 2020, Clyde Hill new home development activity is forecasted to continue the robust pace experienced from 2015 forward. 2020 is expected to have 13 new homes and 45 remodeling projects permitted. New construction valuation in 2020 is projected to be ~$37,950,000;
Other Non-Business Permits.
This revenue source represents the permit fees collected by the City for permitting street openings, public place use, drainage, fire sprinkler, original grade determinations, SEPA, demolitions, mechanicals, over-length vehicle permits, and other mostly construction related permits.

- A significant change in this revenue source starting in 2009 has been for Street Opening Permits. If the City’s capital asset (e.g. paved street) has to be cut open to provide utility services to a homeowner, the permit fee assesses a pavement intrusion fee starting at $750 and then $100 per sq. ft. for cuts greater than 15 sq. ft. or 10 lineal ft. For intrusions into pavement less than two years old, the intrusion fee is tripled;
- In general, the City’s fee resolution allows the City to recover from the applicant any and all costs and expenses incurred by the City related to the application, including, outside consultants and attorney’s fees; and
- This revenue source should parallel the forecast for new home construction in 2020.

Zoning and Subdivision Fees.
This revenue category represents processing fees for variance and subdivision applications. Forecasted revenues are tied to the level of housing development activities.

Fees for conducting Tree View Hearings and any reimbursed expenditures paid by homeowners to the City are recorded in this account as revenue (the State Auditor’s Office does not allow the City to net reimbursements from homeowners against City expenditures).

Plan Check Fees.
This revenue category represents a fee charged for City Hall front counter assistance to apply, the plan review for code compliance, and the drainage plan review before issuing a building permit. The project valuation determined by the City’s Building Official sets the fee amount. The following was considered:

- Thirteen new home projects at an average valuation of $2,400,000 each are planned for in 2020 with another 45 remodeling projects valued at $6,750,000 (remodeling projects represent 17.8% of the $37,950,000 total valuation amount for new construction expected in 2020); and
- Original Grade Permits are viewed as a “bow wave” indicator for higher valuation construction projects. The City has budgeted for 14 of these in 2020 for a total value of ~$5,600.
The chart above shows the volatility of what has become an important revenue source for the City of Clyde Hill in the form of building permits and plan check fees. With fewer revenue options open to the city each year, balancing the annual budget without a strong local housing market becomes more difficult for a small residential community like the City of Clyde Hill.

**MOTOR VEHICLE REVENUES.**

Clyde Hill receives three separate transportation distributions. The first is the Motor Vehicle Fuel Tax (MVFT), which is distributed as a percentage of the total fuel taxes collected statewide. The other two, the “increased motor vehicle fuel tax” and “Multi-Modal” distributions, were created in 2015 by 2ESSB 5987 and consist of direct transfers from the state transportation fund, hence allocations are not impacted by actual fuel tax collections. MVFT and increased MVFT distributions must be used for highway purposes, while the multi-modal funds may be used for any transportation purpose.

The Municipal Research and Service Center (MRSC) provides us with a projection based on how much State gas tax revenue they expect to be collected and then it is distributed to cities based on population. The formula for 2020 is ($22.61 \times 3,055 = 69,074). MVFT is based on number of gallons sold.
FEDERAL & STATE SHARED REVENUES.
Municipal Research and Service Center (MRSC) is a non-profit, independent organization providing excellent consultation, research, and information services to local government in Washington State at no direct cost. For State shared revenues from liquor sales, criminal justice sales tax and motor vehicle fuel tax, we simply look in MRSC’s annual “Budget Suggestions” booklet for their estimate of per capita distributions from the State. We then multiple MRSC’s estimate by our estimated population from the Office of Financial Management for Washington State to determine revenue amounts for the 2019 Budget.

Liquor Excise Tax.
Much has changed on the liquor revenue scene since Initiative 1183 was approved by voters in November 2011. It privatized the distribution and retail sale of liquor, effective June 1, 2012. The markups on liquor have been replaced as a State revenue source by license fees that are paid to the state by retailers and distributors. Thirty-five percent of liquor excise tax collected at the point of sale is deposited in the “liquor excise tax fund” for distribution to cities, towns, and counties. Ten million dollars a year is diverted from this fund to the State’s General Fund. Of the remaining amount, 80% is distributed to cities and towns based on population while the remaining 20% goes to counties based on population.

Determining the 2020 Budget is simply multiplying the MRSC’s estimate by the State Office of Financial Management’s April, 2019 population estimate: $5.49 X 3,055 = $16,772.

Liquor Control Board Profits.
This revenue source has stabilized, but has remained flat since the voters approved Initiative 1183 in November 2011 to end the State’s monopoly on liquor sales. This revenue can still be used for general government purposes. We’re following the Municipal Research and Service Center’s (MRSC) “2019 Budget Suggestions” booklet for guidance (liquor revenues are distributed to cities based on population).

- Under Initiative 1183, the State is now collecting revenue in the form of license fees from distributors and retailers but is still calling these revenues “liquor profits”; and
- The 2020 Draft Budget number was derived by following the MRSC’s guidance of $8.02 per capita multiplied by the April 2019 population estimate in Clyde Hill per the State Office of Financial Management (OFM) equals $24,501 (e.g. “no less than before” per the initiative).

Criminal Justice Sales Tax.
This optional sales tax enacted by King County is a restricted revenue source for criminal justice purposes (the funds cannot be used to replace or supplant existing funding (RCW 82.14.350)). This revenue comes from 0.10% of the 10.0% sales tax charged for eligible goods and services throughout most of King County. Funds are distributed with King
County taking the first 10% off the top and the remainder allocated to cities and the county on the basis of population.

The money is recorded in the City’s Criminal Justice Department of the Projects Fund. Replacement of police vehicles and the computer equipment that goes into the new vehicles are the primary, but not exclusive, expenditures of the Criminal Justice Department.

This is an “elastic” type revenue source that will go up and down with the regional economy.

**Leasehold Excise Tax.**
The City is required to remit to the State a leasehold excise tax equal to 0.1284% for any leases or rents it collects on property that is exempt from property tax. In Clyde Hill, this represents the rental house.

This revenue source comes from the State in an amount equal to 31% of the leasehold excise tax remitted to the State by the City for the rental house (State keeps 54% and County gets 15%).

The wireless communication facilities located in Clyde Hill used to pay leasehold excise tax until a change in tax law interpretation by the Department of Revenue. In theory, the telecommunication companies with wireless communication facilities in Clyde Hill are assessed property tax and help pay part of the City’s annual levy amount.

The Department of Revenue actually audited the City for leasehold excise tax in 2016 and with one small exception, the City passed the audit unscathed.

**Washington Traffic Safety Commission Grant.**
This revenue category represents federal grant money received indirectly through the Washington Traffic Safety Commission. Clyde Hill Officers work designated “emphasis patrols” on overtime and the City is reimbursed for their direct payroll costs. This State program is expected to continue in 2020 although Clyde Hill has not participated the last few years due to manpower issues.

**King County Flood Control District.**
This revenue category represents the City’s cumulative allocation from a special levy by the King County Flood District that was approved by King County voters in 2007. The City’s approved “Sub-Regional Opportunity Fund Project Application” is for the on-going “Clyde Hill Stormwater Management Project.” This project will help develop standards in compliance with Federal, State, and regional requirements that new development in the City will be required to comply with. These standards will help to manage stormwater flooding problems throughout the City.
$3,640 was received in 2009 as 10% “seed money” to start the project. Money has been allowed to accumulate over the years and spent periodically on stormwater-related projects.

The City’s Public Works Department will make application to the King County Flood District to receive the City’s allocation and plans to spend it on stormwater-related projects in 2020.

**King County Special Levy – Zoo / Trails / Open Space.**
This revenue category represents the City’s allocation from a special levy for the zoo, trails, and open space passed by King County voters in 2007 and renewed in 2013. The City’s plan is to use the money from this source to supplement implementation of its sidewalk construction projects.

The first new sidewalk along the south side of NE 24th Street from 92nd Avenue NE to 98th Avenue NE was constructed in 2013. The second of five construction phases took place in the summer of 2015 along 92nd Ave NE from NE 20th Street to NE 24th Street. More sidewalk projects were implemented with the 2017 Budget. A sidewalk along 84th Ave NE between NE 12th Street and NE 24th Street was constructed.

**YARROW POINT POLICE CONTRACT.**
Per contractual agreement through 2019, the Town of Yarrow Point shares 25% of the cost of providing a 24-7, fully-trained and equipped police department for the benefit of both communities:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>2020 Base Service Fee</td>
<td>$386,233</td>
</tr>
<tr>
<td>Other Direct Costs (e.g. dispatch, prosecutor, etc.)</td>
<td>$37,726</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$443,959</strong></td>
</tr>
<tr>
<td>General Fund</td>
<td>$423,959</td>
</tr>
<tr>
<td>Criminal Justice Dept.</td>
<td>$20,000</td>
</tr>
</tbody>
</table>

- Criminal Justice Department is part of the Projects Fund and is used to account for restricted funds; and
- Total Fee Calculation is down $7,937 or 1.8% from 2019 to 2020 Budget.

**TRAFFIC FINES & OTHER PENALTIES.**

**Traffic Fines.**
This revenue category represents the City’s share of revenue received monthly from Kirkland Municipal Court for processing cases filed by the Police Department. In municipal courts, parking fines are 100% local revenue. All other fines, forfeitures, and penalties assessed are subject to a 70% surcharge; the city’s share is 68% of the total fine and surcharge. The remaining 32% is remitted to the State (RCW 3.62.090(1)). Note that 1.75% of the local portion must be remitted to the county for crime victim and witness programs. The City of Clyde Hill records all money received from the Kirkland municipal court that are required to be shared with the state or county in a non-revenue
account in the city’s Trust & Agency Fund. This money is then remitted to the State or County at the end of each quarter.

To a certain extent, the revenue forecast depends on the number of officers who are street ready and working full-time. Otherwise, the impact of the traffic speed signs seems to be maintaining overall speed limits within Clyde Hill and has reduced speeding tickets.

Municipal Court Operations is one of the indicators included in the annual Dashboard Report as a quick and easy way to monitor this revenue source over the past few years.

**Other Penalties.**
This revenue category represents fines assessed for: 1) more than one false alarm; 2) civil penalties for building without a permit and plan review; 3) dumping into the City’s stormwater system; 4) court ordered reimbursement of costs to the City; and 5) in 2015, the late fee penalty from WCF providers.

The volatility of this revenue source is evident in the brief history shown above.

**INVESTMENT INCOME.**
A projected cash flow analysis of investment income supports the development of the 2020 Budget number of $150,000. This is a very conservative estimate, as we expect interest rates to average 1.5% in 2020.

Approximately 98% of the City's available financial resources are invested with the Washington State Treasurer's Local Government Investment Pool (LGIP). The LGIP interest rate lags slightly behind movement in the Fed Funds rate set by the Federal Reserve Bank. September 2019 LGIP rate of return was 2.48%. The corresponding Fed Funds rate is set at 2 %.

The City has an Investment Committee that is made up of the Mayor, two City Councilmembers, the City Administrator (aka Clerk/Treasurer), and the Finance Manager. The Investment Committee is responsible for periodically reviewing investment performance, ensuring compliance with the City Investment Policy (certified by the Washington State Municipal Treasurer's Association), and to make recommendations to the City’s Clerk/Treasurer (City Administrator) of suitable investment opportunities.

**REAL ESTATE EXCISE TAX (REET).**
Homes sold in Clyde Hill pay a graduated Real Estate Excise Tax (REET) at the time the property title transfer is recorded with King County. Clyde Hill receives 0.005% times the sales price, less a 1.3% collection fee paid to King County. This revenue source is restricted by law to capital improvements and is accounted for in the Capital Projects Department of the Projects Fund. The state’s share varies between 1.10% and 3.00%.
Washington State - Graduated REET structure

</tbody>
</table>

**REET 1st/2nd Quarter Percent.**
These restricted revenue sources are excise taxes imposed on the sale of real property and dedicated to local capital projects identified in RCW 82.46.010. Sellers of real property pay a total of 1.60% to 3.50% of the sales price at the time title transfers to the buyer. REET’s 1 (0.25%) & 2 (0.25%) make up 0.50% of the total. REET is recorded on the City’s books in the Capital Projects Department of the Projects Fund. REET 1 can be used for any capital improvement identified in the RCW listed above. REET 2 is more restrictive per RCW 82.46.035(5) and can only be used on capital projects specified in the City’s capital facilities plan and generally excludes parks (large cities complain this distinction is too restrictive, but for Clyde Hill it has not proven to be a problem because this revenue is used for road, stormwater, or sidewalk construction).

The 2015 State Legislature allowed cities to use REET for “limited maintenance” of capital assets (e.g. streets) with spending thresholds and additional reporting requirements. In 2019 EHB 1219 modified the allowable uses of REET 2 to allow for capital projects related to homelessness and affordable housing projects.
In general, the condition of the home sale market and the related REET revenue is a leading indicator for the City’s other “elastic” revenue sources such as building permits, plan check fees, property tax new construction, and sales tax from construction activity.
Background.
To assist the participants involved with developing next year’s budget, we prepare a set of “worst case” revenue and expense projections through 2026, a set of “best case” revenue and expense projections and a set of “most likely” projections. Although this exercise is based totally on hypothetical economic conditions, we try to be realistic enough to be meaningful in the 2020 Budget decision-making process.

Projection Summary.
The intent is for the worst case projections and best case projections to serve as “bookends” for what most likely will happen in the financial future of the City of Clyde Hill. The City has been fortunate in the recent past with the one-time revenue generated by the $40M Chinook Middle School Project and the $48M Clyde Hill Elementary School Project. To recap the revenue from the first project, in 2012 the City received $547,656 in the “Development Revenue” category and from 2012 through 2015 the City received $347,007 in the “Sales Tax” revenue category. This revenue helped the City get out of recession and build a reserve fund foundation that has met the reserve fund financial policy. To recap the revenue from the second project, in 2018 the City received about $704,200 in the “Development Revenue” category and between 2018 and 2019 the City received $387,600 in the “Sales Tax” revenue Category.

In general, the best case scenario assumes the City’s revenues will continue to climb throughout the projection period due to a strong housing market and expenditures increasing slowly over the Fed’s target inflation rate of 2.0% through 2025. For the worst case revenue projections, a weak housing market returns to Clyde Hill, similar to the abnormally low level of development activity experienced in 2009 through 2011. The worst case projections through 2025 shows the devastating effect that high inflation has on the City’s expenditures in the form of salaries/benefits, contracted services (e.g. municipal court, elections, legal, jail, and audit) and other day to day operating costs.

Charts.
Revenue, expenditure and fund balance charts have been included to show both the “worst case” and “best case” scenarios together with the most likely scenario. The primary focus is on the City’s General Fund (Operating Account). The fund balance for each of the City’s three funds (General, Reserve and Projects) are charted through 2025 to show the bottom line impact on resources available for budgeting purposes.

Concluding Remarks.
In general, the housing market appears to be the pivot point for the City’s General Fund to finish each fiscal year with a surplus or deficit.
GOALS, POLICIES, CURRENT CONDITION & MONITORING
Budget Process Overview
City of Clyde Hill, Washington

Background.
The City of Clyde Hill is a residential community of approximately 3,045 residents. It is located on the eastside of Lake Washington directly across the lake from the City of Seattle and is bordered by the cities and towns of Bellevue, Kirkland, Medina, Yarrow Point and Hunts Point. The City of Clyde Hill incorporated on March 31, 1953, and operates under the laws of the State of Washington applicable to a Mayor – Council form of government. The City of Clyde Hill is a general-purpose government and provides a partial range of municipal services, which include a ten-member Police Department and a five-member Public Works Department. In addition, the City provides building and land use management services, street and storm sewer service, parks and recreation, and general government services (i.e. elections, arbor advice, pet licenses, public records, emergency preparedness, legislative, executive functions, etc.). The City budget includes 20 authorized employees for 2020.

The 2020 Total City Expenditure Budget is approximately $8.2M. As allowed by the State Auditor's Office for smaller sized cities, the City uses the "modified cash basis" method of accounting and budgeting, which is a departure from Generally Accepted Accounting Principles (GAAP). The City has no debt. The City of Clyde Hill's fiscal year is the calendar year January 1st through December 31st.

The City of Clyde Hill contracts with its neighboring cities and towns to share the costs of providing certain municipal services to residents. For example, the City of Bellevue provides fire, water and sanitary sewer. The City of Kirkland provides municipal court services. Jail services are provided by King County and an assortment of eastside and south King County cities. Going in the other direction, the City of Clyde Hill provides police services to the 1,025 residents in the Town of Yarrow Point. Worth noting also is the City of Clyde Hill is one of 11 members of the award winning Coalition of Small Police Agencies for mutual aid and enhanced training opportunities.

Clyde Hill considers its primary industry to be schools. The City provides a safe and clean environment for the over 2,500 students and staff at Clyde Hill Elementary (currently under re-construction), Chinook Middle School, Sacred Heart School and Bellevue Christian School.

The City of Clyde Hill's budget process culminates in an overall "Business Plan" each year for the City. The ingredients that go into the budget process start with the City's budget philosophies, on-going "core" goals of the City, and a review of trends affecting the City's financial condition. These ingredients are updated and reaffirmed at the start of each budget development process. The resulting business plan includes “target issues” to accomplish during the 2020 budget year. The business plan also includes future projections of revenues, expenditures and fund balances using both a "best-case scenario" and "worst-case scenario" to provide "bookends" of the most likely scenarios to be faced by the City over the next five years.
The 2020 operating budget is essentially the short-term plan to guide the City through the next fiscal year while the Capital Facilities Plan is designed to guide the City for more expensive capital improvement projects over the next six-year period. The City’s annually updated Transportation Improvement Plan (TIP) is used to update the Capital Facilities Plan each year.

Although the City has made great strides in developing a total business plan, continued work is always necessary to keep items current and to plan based on the ever-changing conditions of the external and internal environment. In September, the City Council is presented with a set of economic, financial, and demographic indicators that help to describe various financially-related trends impacting the City. The Council annually reviews and has revised a set of Financial Policy Statements to help guide the staff in areas pertaining to fund balances, how to classify interest income and how to keep the City’s finances healthy. These policy statements are reviewed every year to make sure they represent the current thinking of the Mayor and the Council.

City Services Provided.
Tax dollars eventually make their way through the various distribution formulas to the City of Clyde Hill and are used to provide the following tangible benefits to residents:

- **Law Enforcement** (24/7 fully-equipped & trained, 10-member Police Department including Municipal Court Services by the City of Kirkland, Jail Services by King County and an assortment of eastside and south King County cities);
- **Fire Suppression & Medic One** (24/7 fully-equipped & trained service provided by the City of Bellevue Fire Department);
- **Street Operations** (e.g. signs, signals, lighting, street cleaning, clear fallen trees, on-call snow plowing, de-icer, sanding, etc.);
- **Roadway Improvements** (e.g. overlays, patches, street striping, crack sealing, curb painting, bush trimming, etc.);
- **Storm Drainage** (e.g. pipeline cleaning, catch basin repairs, storm drain repairs, etc.);
- **Special Paths** (e.g. Points Loop Trail, sidewalk construction, sidewalk repair, mowing, trimming, weeding, maintaining the attractive City entrance areas, etc.);
- **Building Code Enforcement** (e.g. code information, plan reviews, building permits, other permits, inspections, Planning Commission, view mitigation services, arbor advice, etc.);
- **Park Facilities** (e.g. 26th St View Park, Tennis Courts, path along 84th Ave, maintain adjacent parking lot & picnic area near school ballfields, etc.);
- **General Government** (e.g. Mayor & City Council, election services, communications, finance, audit, legal, insurance, emergency preparedness, pet licenses, GMA, SR-520 construction impacts to the City, urban forestry program, LID administration, wireless communication facilities administration, etc.);
- **City Hall Repair & Maintenance** (e.g. roof maintenance, exterior painting, etc.); and
- **Regional Responsibilities** (e.g. ARCH, animal control services, improved water, Puget Sound Regional Council, Sound Cities Association, Association of Washington Cities, Puget Sound Air Pollution Control, Eastside Transportation Planning, etc.).
Timing.
The Budget process typically begins in September of each year culminating with adoption of a budget for the following year at the December City Council Meeting. Public meetings are held during this process to review the City’s financial condition, set priorities, and allocate resources to meet the needs of the City. In accordance with State Statutes, the 2020 Preliminary Budget was available to the public on November 1, 2019. The City newsletter, e-mail alerts and the City’s website www.clydehill.org are the best ways to be made aware of upcoming Budget process events. Notices of all public meetings are published in the Seattle Times newspaper. Although rare in occurrence, amendments of the Budget can be done by Ordinance passed by the City Council at any time during the budget year.

Responsibilities.
The City Council is responsible to set policies for the City and enact a budget. The Mayor, working with the City Administrator, is responsible for preparing a preliminary budget and a “budget message.” The Mayor and City Administrator are basically in charge of day-to-day operation of the City, including the supervision of all appointed officials and employees. In general, they are in charge of carrying out the policies set by the Council and seeing that local laws are enforced.

To add private business experience and/or a homeowner’s perspective throughout the Budget process, Clyde Hill has instituted a Budget Advisory Committee made up of five to twelve City residents expressing an interest in the City’s finances. The Budget Advisory Committee assists the Mayor and City Council in formulating a budget that is designed to best suit the needs of the City of Clyde Hill. In addition, all residents of Clyde Hill are welcome at Budget study sessions or regularly scheduled City Council Meetings to offer their perspectives in formulating the next year’s budget.

Legal Requirements.
Municipal Research Services Center of Washington (MRSC) publishes a booklet called “Budget Suggestions” each year for cities to use in their budget planning process. The document summarizes State Law time requirements and any recent legislation that may affect the next year’s Budget. This document in particular is scrutinized thoroughly by City staff at the start of our Budget process to ensure compliance with any and all legal requirements.

Budget Monitoring.
Each month, the City’s Finance Manager “closes the books” and prepares financial statements for review by the City Administrator, Mayor, Council members and the Budget Advisory Committee members. Cash and investments are reconciled to the respective bank statements and all of the accounts are reviewed for proper classification and completeness. A “highlights” memorandum from the Finance Manager is attached to the financial statements for distribution pointing out any significant favorable or unfavorable variances with the Budget. This information is posted to the City of Clyde Hill’s website as part of the packet sent out prior to the City Council Meeting each month and staff is available for questions at any time. In addition,
Department Heads are given their specific expenditure and budget information each month for them to monitor their budget responsibilities.

Due to the extraordinary economic turbulence experienced during the second half of 2008 while the 2009 budget was being developed, a special enhanced budget monitoring plan was formulated. This enhanced budget monitoring plan will continue in 2020 and has been slightly refined since its inception based on input from Councilmembers and Budget Advisor Committee members. The refinements involved a better link to the revenue and expenditure categories being monitored and reported on the Monthly Operating Report and takes into account materiality for reporting purposes. Overall, this plan is designed to avoid any surprises and give the City Council as much time as possible to deal with any unfavorable budget variances developing during the 2020 fiscal year, if any.

**Annual Audit Report.**
The Washington State Auditor’s Office independently audits the City of Clyde Hill annually. As evidence of the City’s accountability and strong fiscal practices, the State Auditor’s Office in December, 2001 presented a “recognition award” to the City for eleven continuous audits with no findings (i.e. significant problems). Our last published audit reports for fiscal year 2018 are available on the “Finance Page” of the City’s web site at [www.clydehill.org](http://www.clydehill.org).

Clyde Hill looks forward to the audit each year as a way to strengthen its practices and provide it with assurances that its fiscal house is in order. The City of Clyde Hill has a written internal control plan that it shares with the State Auditor’s Office each year and looks for opportunities to strengthen the plan each year. To offer an insight on one of the important costs of a smaller municipal government, the City of Clyde Hill budgeted $16,000 in 2020 for its audit related services.

PHILOSOPHIES:
• SERVICE DELIVERY
  Strive to meet the long-term total community needs of the City
• CHARACTER
  Strive to maintain a quality residential character
• ETHICAL
  Maintain high ethical and professional standards
• RESPONSIVE
  Effectively and quickly respond to the needs of the community
• FINANCIALLY PRUDENT
  Develop strong long-term fiscal integrity

GOALS:
• Maintain strong fiscal integrity
• Meet long-term total community needs
• Provide and maintain high quality services
• Make best use of human resources within the organization and the community
• Strive to be opportunistic in approach
• Maintain high ethical standards
• Respond effectively to the needs of the community

TRENDS AFFECTING THE CITY:
• Economic conditions
• Changing Federal, State and County roles and mandates
• Political environment
• New legislation
• Technology
• Surrounding communities
• Changing City needs
CRITICAL TARGET ISSUES

☐ Monitor/participate in construction activities of SR 520 Bridge Replacement & HOV Project:
  ☐ Actively participate in process
  ☐ Communicate Clyde Hill issues with WSDOT, contractors & other cities
  ☐ Acquire an acceptable lid maintenance contract

☐ Complete a successful fiscal audit (no findings) of City’s finances/operations

☐ Facilitate redevelopment of Bellevue Christian School

☐ Develop 2021 Budget

☐ Complete initial Phase of Facilities Master Plan
  ☐ Purchase BSD property
  ☐ Build parking/safety enhancements at the Public Works Building
  ☐ Work w/Bellevue re: shared use facilities & Fire Station #5

☐ Remain compliant w/NPDES regulations

TARGET ISSUES

☐ Update City’s annual Pavement Rating Condition Survey

☐ Maintain City’s eligibility as a Tree City USA

☐ Continue to assist community with tree/view issues while implementing revised view regulations

☐ Implement City’s investment policy/schedule

☐ Manage Traffic Program

☐ Manage Social Media Program

☐ Manage eRecords Program

☐ Manage Vegetation Maintenance Program

☐ Maintain service/quality levels for Building Department

☐ Maintain City’s compliance with WCIA’s Compact

☐ Successfully coordinate City Celebration, Pumpkin Festival & Arbor Day

☐ Perform 2020 street overlay

☐ Complete designs for 2021 overlays

☐ Fully-staff the Police Department

☐ Complete all miscellaneous stormwater projects

☐ Continuously issue The Sentinel, the Weekly Administrator’s Report, & the bi-monthly City Newsletter

☐ Surplus excess equipment

☐ Acquire/deploy striping services in 2020

☐ Update the City’s Transportation Improvement Plan

☐ Issue quarterly financial reports

☐ Complete Police Security Project

☐ Receive 2020 GFOA Budget Book Award

☐ Update Building Valuation Matrix

☐ Purchase:
  ☐ New Police SUV & MDT
  ☐ New De-Icer
  ☐ New Salt Dogg Sander
  ☐ Four New Police Radios
  ☐ Twelve New Police Rifles

☐ Oversee Bellevue Water Main Replacement
2020 Financial Goals and Objectives
City of Clyde Hill, Washington

Background.
The combined impact of challenging economic times, State budget-balancing and the occasional State Initiative requires us to remain vigilant in keeping an eye out for the City’s financial health. An important objective of the annual budget process is to review and confirm a financial plan that includes short- and long-term financial guidelines for the City.

A set of Financial Policy Statements establishes the guiding principles for the longer-term fiscal stability of the City. The Financial Strategy is the City’s action plan that confirms the shorter-term policies and considerations. These strategies make up the 2020 Budget and include other activities to help the City’s longer-term financial health. The combined documents make up the City’s annual Financial Plan. The 2020 Financial Plan is outlined below for your review, comment, and confirmation.

Considerations for Discussion and Decision.
Attached to this memo is a copy of the City's Financial Policies. Annually, the Council looks at these policies to make sure they are in alignment with current thinking. The most recent changes occurred within the last few years when the Council approved a 10th Policy Statement relating to the City’s Capital Projects Department balance and revised Policy Statement #5 relating to the City’s Reserve Fund and its alignment with the City’s Worst-Case Financial Projection.

The City's Financial Policy Statements help guide the overall financial vision of the City and are reviewed each year to make sure they represent the current philosophy of the Mayor and the Council. These policies were first developed in the early 1990’s and have been modified to reflect a changing longer-term sentiment. The Financial Policy Statements are designed to establish guiding principles for the long-term fiscal stability of the City.

During the budget process the group was provided with a few opportunities to review the City’s Financial Policies and pursue any modifications. The subsequent discussions concluded with no suggested change to the existing policies.

There are no other proposed changes recommended to the City's Financial Policy Statements for 2020.

2020 Financial Strategy.
The City’s Financial Strategy confirms the shorter-term policies and considerations of the current budget year and also includes other financial activities that help the City’s longer-term financial health. Below is a draft of Clyde Hill’s 2020 Financial Strategy.

On September 12th and November 14th, the Council and the citizen’s Budget Advisory Committee reviewed a draft and a preliminary budget, along with other financial
information in order to decide on a 2020 Final Budget. The philosophies adopted at these meetings help to comprise the short-term element of the City’s financial plan.

**Balance the 2020 Operating Budget Using the Following Guidelines:**

- Maintain expenditures at amounts that will not negatively impact or remove existing city services;
- Continue to budget for a 7th police officer, a 3rd Public Works Crew member and a full-time Assistant City Administrator;
- Maintain cuts to total operating expenditures that took place during the recession;
- Project operating revenues using a realistic approach;
- Project development revenues to account for a continued short-term high demand for construction projects in 2020 at a ~$38 million level;
- **Do not include** the allowable 1% general levy amount or the amount for new construction in the 2020 property tax request. Unused amounts will be added to the City’s banked property tax account;
- Use about $2.0M to fund the City’s Facilities Master Plan;
- Use the remaining 2019 General Fund balance to offset the operating deficit in the General Fund in 2020; and
- Evaluate implementation of the Budget and the City’s fiscal health through the continuation of the City’s enhanced, monthly budget monitoring/reporting practices.

**Continued Emphasis on Monitoring Revenues & Expenditures:**

- Closely monitor home sales and development activity throughout the year to see if the volume and value of the budgeted estimates are being met;
- Monitor and report to Council on real estate sales and excise tax trends; and
- Continue to implement an enhanced Budget Monitoring Plan to evaluate and report on the City’s Budget and fiscal health throughout the year.

**Audit Sales Tax & License Payments:**

- Use the information from sales tax and business licensing and work with the accountants from larger construction projects to assure that their sales tax payments are coded correctly to the proper jurisdiction.

**Capital Projects:**

- Implement a Sidewalk, Storm Drain Repair and Road Overlay Program.

**Continue Emphasis on Long-Term Financial Planning:**

- Review financial trend information and 6-year projections on an annual basis before the development of the 2021 Budget; and
• At time of Council discussion of the City’s Transportation Improvement Plan (TIP), provide an associated funding analysis.

Increase Community Awareness of City Services & Financial Challenges:

• Use the Newsletter, website, annual budget book, social media, the City’s partnership with the local magazine Points Living and cable TV channel to make the community aware of the services they receive from the City, the status of the City’s actual performance in providing services (dashboard report) and any financial challenges the City faces to continue these services at current levels.
Summary of All City Long-Range Planning Processes
City of Clyde Hill, Washington

**Transportation Improvement Plan (TIP).**
The TIP is a six-year financial plan describing the transportation related projects the City Council wants to fund if resources are available. Projects could be road overlays, sidewalks, storm drainage along right-of-ways or special paths. The City of Clyde Hill has traditionally updated the TIP at the regularly scheduled June City Council meeting.

Presented along with the updated prioritized list of transportation related projects is the annual street condition survey conducted by the Public Works Director. The City’s Finance Manager also prepares a six-year Cash Flow Analysis to determine if it’s realistic to think resources will be available to complete the projects when scheduled as part of the TIP. Consideration of maintaining $1,000,000 in reserve per Policy Statement #10 for transportation in case of an emergency is also part of this planning process.

The City accounts for the TIP in the Capital Projects Department of the Projects Fund. The primary sources of revenue are from the Real Estate Excise Tax (REET), special property tax levies by King County, and grants from State agencies.

**Capital Facilities Plan.**
The City of Clyde Hill’s Capital Facilities Plan is a six-year financial plan that allows the City to prioritize public projects and identify funding sources. The Capital Facilities Plan serves as a guide to the City's future financial obligation in providing the public facilities desired by the community. This document provides an overview of the City’s financial resources and funding opportunities.

In Washington, the Growth Management Act (GMA) requires that all cities and towns collecting the second 0.25% of the REET have an annually updated Capital Facilities Plan.

**Comprehensive City Plan.**
The City’s Comprehensive Plan is the document used to help guide a number of land use and zoning decisions for the community. This document is reviewed and updated every 10 years. 2015 was the last update year for the City’s Comprehensive Plan for the period 2015 – 2035. The City was awarded a $10,000 grant from the State in 2014 to accomplish this task.

**Concluding Remarks.**
Each of these three on-going, periodically updated plans is taken into account while developing the 2020 budget. These individual plans also serve the purposes of prioritizing potential future expenditures and encourage all stakeholders in the City’s financial future to be consistent and realistic when making plans.
FINANCIAL POLICY STATEMENTS
FOR THE
CITY OF CLYDE HILL
December 2013
(Affirmed December 2019)

PURPOSE:
The City of Clyde Hill has an important responsibility to account for public funds, manage municipal finances and plan for the adequate funding of services, including the provision and maintenance of public facilities. The City’s Financial Policies are designed to establish guidelines for the long-term fiscal stability of the City of Clyde Hill.

OBJECTIVES:
To achieve the above purpose, the following are objectives for the City's fiscal performance:

1. Protect the Council's policy-making ability by ensuring that important policy decisions are not controlled by financial problems or emergencies.

2. Enhance the Council's policy-making ability by providing accurate financial information.

3. Assist sound management of the City by providing accurate and timely information on program costs.

4. Provide sound principles having significant financial impact to guide important decisions of the Council and City management.

5. Set forth operational principles that minimize the cost of local government, to the extent consistent with services desired by the community, and which minimize financial risk.

6. Employ revenue policies that prevent undue or imbalanced reliance on certain revenues, which distribute the costs of municipal services fairly and which provide adequate funds to operate desired programs and services.

7. Prevent deterioration of the City's capital plant and its public facilities.

8. Insure the legal use of all City funds through a planned system of financial security and internal control.

Historical Lessons Learned:
To achieve the above objectives, in 1992 the City conducted an analysis of its present financial condition, focusing on historical trends, areas of concern and financial solutions or ideas. Since that time the City continues to maintain the tools used in tracking important financial/economic trends and projecting out potential financial scenarios in both good and bad times. With a current understanding of the forces and obstacles impacting the City’s finances, all involved in the budget development can better appreciate potential problems with revenue sources, management practices, infrastructure conditions and future funding needs. This information enables the City to plan for and develop informed long-term strategies for the City’s continued financial solvency.
FINANCIAL POLICY STATEMENTS:

Policy Statement #1:
Continue to investigate and consider every possible expenditure reduction to keep expenses to a minimum without reducing the quality of services currently offered to the community.

Implementation #1:
Continue the current policy of the staff proposing through the budget process, only those expense items necessary for the continued provision of current services at the same or greater quality level as currently exists. Items not meeting these criteria should be so noted as part of the budget review process.

Policy Statement #2:
Continue to review financial trends relating to the City’s finances.

Implementation #2:
Every “even” budget year, update trend-monitoring information for review during the budget review process.

Policy Statement #3:
Continue to find ways to simplify the City's financial system to enable residents and future policy leaders to obtain a quicker and easier understanding of City finances.

Implementation #3:
Implement the fund simplification and consolidation plan of 1992 and 1999, and continue to supply the Council and interested residents with monthly operating reports in an agreed upon simplified format.

Policy Statement #4:
Balance all aspects of the budget for long-term fiscal solvency.

Implementation #4:
On an annual basis, and as part of the budget discussions, decide upon the proper mix of expenditures and revenues to meet this objective.

Policy Statement #5:
Maintain a managed reserve balance in the City's funds to address adverse financial trends, provide for financing of unforeseen needs of an emergency or non-recurring nature, to permit for the orderly implementation of budget adjustments, provide a local match for public or private grants and to allow for flexibility to take advantage of any unexpected opportunities.
Implementation #5:
Maintain a minimum unreserved balance in the Reserve Fund that is at least equivalent to the amount required to keep the City’s General Fund balanced for five years based on the City’s most current worst case financial projection scenario. It is acceptable practice for the City to include the budgeted General Fund balance and discretionary department balances from the Projects Fund to meet this policy.

Policy Statement #6:
Continue to make sure that the City's financial system is managed and implemented according to the highest professional standards and is consistent with state law.

Implementation #6:
Continue the current policy of requesting an annual state financial and compliance audit of the City's operations and finances. Encourage the staff to implement financial systems consistent with the State’s BARS system.

Policy Statement #7:
Continue to hire highly qualified City personnel to maintain a professional, ethical and equitable government.

Implementation #7:
Make sure that City personnel are competitively compensated and that the City's benefit package is comparable to surrounding communities to control unnecessary turnover after training.

Policy Statement #8:
Provide for the orderly and appropriate replacement of City equipment.

Implementation #8:
Continue to implement an Equipment Replacement Program in the Projects Fund and annually appropriate funds to that department to provide for the stable, timely and appropriate replacement of equipment. The replacement of equipment will be based on an adopted equipment schedule that will annually be updated and presented to the Council during the budget process.

Policy Statement #9:
Continue to consolidate and allocate all interest income earned on surplus City funds into the General Fund to better streamline the City’s financial operations and further simplify the accounting system.

Implementation #9:
Continue to record all interest income received from certificates of deposit, federal agency securities, the Local Government Investment Pool (LGIP), and City financed Local Improvement Districts (LID), to the extent permitted by law, into the City’s General Fund when received. Budgeting for interest income in the General Fund will incorporate this policy statement.
**Policy Statement #10:**
Maintain a managed reserve balance in the City’s Capital Projects Department (within the Projects Fund). Maintain this balance to protect City infrastructure or other capital assets from unforeseen needs of an emergency or non-recurring nature or adverse financial trends to a limited capital revenue source. This reserve is important to allow the orderly reconstruction or preservation of the City’s larger cost exposures.

**Implementation #10:**
Maintain a minimum balance in the Capital Projects Department (within the Projects Fund) of at least $1,000,000 to address larger capital costs related to uncontrollable emergency related or unforeseen economic occurrences. Amounts in excess of this reserve balance can be used by the Council on a priority basis for larger capital projects or opportunities the Council deems appropriate.
Current Debt Obligations
City of Clyde Hill, Washington

To enhance budget communications with interested parties, the City of Clyde Hill would like to provide the following information regarding current debt obligations for the City:

- The City of Clyde Hill has no current debt obligations;
- Current unwritten policy can be described as “pay as you go” and “do not accumulate debt to burden future generations of Clyde Hill taxpayers;”
- Washington imposes legal debt limits for all governmental entities;
- Limits on the City of Clyde Hill to issue debt are as follows:
  - 2.5% of Assessed Value for general purposes is allocated between:
    - Up to 1.5% debt without a vote (councilmanic); and
    - 1.0% general-purpose debt with a vote.
  - 2.5% Assessed Value for open space, park, and capital facilities with a vote.
- The City of Clyde Hill does not operate any utilities;
- The City of Clyde Hill does not intend to issue debt in the foreseeable future; and
- Conditions that should be considered in conjunction with any future issuance of debt:
  - Unforeseen needs of an emergency or non-recurring nature (e.g. devastating earthquake);
  - Orderly implementation of budget adjustments;
  - Local match for public or private grants; and
  - Unexpected opportunities.

Note: The City of Clyde Hill Assessed Valuation for the 2020 Tax Roll is $3,021,657,216 (2.5% of the current assessed value equals $75,541,431).

Please contact the Finance Manager, Dean Rohla with any questions or concerns regarding current debt obligations (dean@clydehill.org & 425-453-7800).
Monitoring the City’s Financial Condition
2020 Budget Development Process

**Brief Explanation.**
Financial Policy Statement #2 for the City states, “Continue to review financial trends relating to the City’s finances and operations.” As one of our first steps in the budget process, City staff update the trend monitoring information for review by all the participants involved with developing the next year’s budget. Using the City’s past performance to monitor the City’s current financial condition is an important tool to understand economic trends having an impact on the City’s finances.

**Definition.**
For our purposes, “financial condition” means the ability of the City to generate enough operating revenues to provide services at the level and quality that residents of Clyde Hill expect, without incurring deficits.

**Concluding Remarks.**
- The City’s General Fund has finished fiscal year 2019 with a deficit of $670,186 (updated February 2020);
- The City’s General Fund is expected to finish fiscal year 2020 with a deficit of $331,122 (updated February 2020);
- Each of the City’s financial condition indicators has their own somewhat unique story to tell and the associated charts are designed to help relay that information to the 2020 budget development participants; and
- City staff continues to diligently hold down expenses at every opportunity.

2020 Enhanced Budget Monitoring Plan  
City of Clyde Hill, Washington

**Background.**  
The following additional internal control was introduced in 2009. These monitoring activities act to strengthen the City’s internal control system and help manage any budget-related surprises. The goal of the plan is to avoid surprises through targeted monitoring with a specific written plan requirement when problems are identified.

Three (3) levels of financial control for City revenues and expenditures are a part of implementing the 2020 Budget.

**Revenues.**

- **Level 1 – Continue to Monitor:** Monitor all revenue sources each month by comparing actual to budget year to date expectations. Staff will share these comparisons with the City Council on the Monthly Operating Report. Both the quarterly and the monthly reports will highlight all major operating revenues and will group any other revenues with a budget of less than $15,000.

- **Level 2 – Falls Behind by 5% – Watch List:** If any revenue source or grouping falls behind budget year to date expectations by 5% after the first quarter, it will be placed on a “Watch List” and will be highlighted to the Council as a potential problem.

- **Level 3 – Falls Behind by 15% – Red Flag List – Treatment Plan:** If any revenue source or grouping falls behind the budget year to date expectations by 15% after the first quarter, it will be placed on a “Red Flag List.” When any revenue source or grouping is placed on the Red Flag List, a specific treatment plan will be developed by the staff to address a potential revenue shortfall. Guidelines for the treatment plan could include: 1) expenditure cuts to offset the loss of revenue; 2) designation of a specific surplus revenue source to act as an offset to the identified revenue shortfall; and/or 3) an amendment to modify the Budget.

**Expenditures.**

The expenditure classification will be modified to provide the Council with the same degree of monitoring protection but at a higher level of reporting. Expenditures will be categorized by subject area groupings, specifying areas that are both material in amount and more important in stature (e.g. salaries/benefits – Legal Services – Dispatch – Jail Services – Insurance…). Expenditure groupings will be reported by department to allow for better recognition within program areas. These same subject area groupings will be included in the Council’s Monthly Operating Report to allow for a higher level of reporting and consistency of information between quarterly and monthly reports.

- **Level 1 – Identify & Hold Back Certain Expenditures:** The staff will identify the more flexible operating expenditures that could be held back into the second half of the year. This will enable the staff to use these expenditures as possible candidates to offset a Level 3 revenue shortfall.
- **Level 2 – 10% Over Budget – Watch List:** If any expenditure grouping is 10% over budget after the first quarter, it will be placed on a “Watch List” and will be highlighted to the Council as a potential problem.

- **Level 3 – 15% Over Budget – Red Flag List – Treatment Plan:** If any expenditure grouping is 15% over budget after the first quarter, it will be placed on a “Red Flag List.” When any expenditure grouping is placed on the Red Flag List, a specific treatment plan will be developed by the staff to address the increased cost. Guidelines for the treatment plan could include: 1) plans on how to reduce costs going forward; 2) place a freeze on an expenditure account(s) if possible; 3) designate or freeze other expenditure account(s) to provide overall savings to offset the unfavorable condition; 4) designation of a specific surplus revenue source to act as an offset to the identified expenditure grouping problem; and/or 5) an amendment to modify the Budget.
DEPARTMENT INFORMATION & PERFORMANCE MEASURES
Relationship Between Functional Units & Funds
City of Clyde Hill, Washington
Fiscal Year 2020

Note: To better monitor restricted revenues, the City utilizes the Projects Fund made up of seven departments (e.g. activities). This matrix is designed to show which of the City's three functional units has at least some responsibility for the seven departments in the Projects Fund. All salary, benefits, and operating expenditures for the three functional units are recorded in the General Fund.

GENERAL GOVERNMENT DEPARTMENT

The General Government Department is part of the General Fund and includes the City Administrator, Lyman Howard, Assistant City Administrator, John Greenwood, Deputy City Clerk, Courtney Benjamin, Deputy City Clerk & Code Enforcement Officer, Teri Tupper (2/3) and the Finance Manager, Dean Rohla (1/2). Expenditures to support the Mayor, City Council, Planning Commission and Hearing Examiner are also recorded in this department.
The General Government Department shares in managing the departments that make up the City’s appropriated Projects Fund (i.e. this is a Combined Special Revenue Fund used to simplify budgeting and track restricted type revenues). The Departments include: 1) Criminal Justice Department (shared responsibility with the Police Department); 2) Grants Department (shared responsibility with the Public Works / Building Department); 3) Equipment Replacement Department (shared responsibility with the Public Works / Building Department); 4) Housing Department (shared responsibility with the Public Works / Building Department); 5) Parks & Recreation Department (shared responsibility with the Public Works / Building Department); 6) Special Projects Department (shared responsibility with the Public Works / Building Department); and 7) Capital Projects Department (shared responsibility with the Public Works / Building Department). All salary, benefits and operating expenditures for the General Government Department are paid from the City’s General Fund.

This group works closely together and wears many hats to meet the wide range of municipal government needs for City residents. General Government Department services include:

- Support the Mayor, City Council, Planning Commission and Hearing Examiner;
- Provide election services through King County;
- Assist communications with all City stakeholders through one-on-one contacts, City newsletters, Weekly Administrator Reports, website postings, Facebook postings, social media interaction on NextDoor and Channel 21 TV;
- Administer the day-to-day accounting function (including payroll), prepare monthly, quarterly, and annual financial reports, provide human resource recordkeeping services and shepherd the budget process to adopt the next year’s budget;
- Implement and monitor the City’s Investment Policy;
- Partner with other local jurisdictions to negotiate with the Washington State Department of Transportation (WSDOT) involving the new $4.65B SR-520 Floating Bridge Replacement and HOV Project across Lake Washington for the best interests of Clyde Hill;
- Administer the Business Licensing requirement for businesses operating in Clyde Hill or conducting a business from their personal residence;
- Assist the State Auditor’s Office (SAO) to conduct an independent and comprehensive audit of the City each year;
- Work with the contracted City Attorney to provide legal service as needed;
- Work with the Washington Cities Insurance Authority (WCIA) to provide insurance and risk management services for the City and continue to keep the City in compliance the “Compact of Membership;”
- Work with the Association of Washington Cities (AWC) In-house Retro Program staff serving as the Third Party Administrator to minimize the cost of Labor & Industry (L&I) worker’s compensation insurance claims;
- Manage emergency preparedness;
- Negotiate franchise agreements with utility service providers within the City (i.e. Republic Services, Comcast, Bellevue Utilities, Puget Sound Energy, CenturyLink, etc.);
- Continue to professionally manage the City’s low income rental home and actively participate in the ARCH program (A Regional Coalition for Housing);
• Provide friendly City Hall front counter type services such as public records requests, pet licenses, concealed weapon permits, and business licensing;
• Plan the City’s future by compliance with the State’s Growth Management Act (GMA; Comprehensive Plan Update every 10 years last updated in 2015);
• Assist homeowners with the free City sponsored urban forestry program and celebrate Arbor Day each year with the 5th graders from Clyde Hill Elementary School by planting a tree in their honor;
• Provide in-house Local Improvement District (LID) planning, accounting and ongoing administration (no open projects currently);
• Negotiate and administer wireless communication facility leases with multiple telecommunication companies (e.g. 6 separate facility leases involving 4 different telecommunication companies in 2019);
• Provide information and facilitate “view” related issues with homeowners;
• Coordinate activities for a successful Community Celebration Event in August and the Parade of Pumpkins Display Event at Halloween;
• Coordinate and pay for the City’s regional responsibilities such as contributions for affordable housing on the eastside, National Pollution Discharge Elimination System (NPDES for stormwater quality), Water Resource Inventory Area (WRIA 8) for salmon recovery in compliance with the Endangered Species Act, Puget Sound air quality, Puget Sound Regional Council, Sound Cities Association (formerly Suburban Cities Association), AWC and Eastside Transportation Project Planning.

Overall, this group provides management, information and coordination in the day to day operations of the City’s general government activities.

2020 Targets & Projections.

Target Issues.

• Maintain generally accepted strong financial management practices and objectively measure to ensure this goal is being achieved (see following performance measures labeled “Strong Financial Management Practices”);
• Acquire the GFOA 2020 Budget Presentation Award;
• Provide public services in an effective and efficient manner and continually look for performance measures to ensure this goal is being achieved (see following performance measures labeled “Effective and Efficient Public Service Delivery”);
• Monitor and participate in construction completion activities of the SR 520 Bridge Replacement & HOV Project: a) actively participate in process; and b) communicate Clyde Hill issues with Washington State Department of Transportation (WSDOT), Eastside Corridor Constructors (ECC) and other cities;
• Work with adjacent cities and WSDOT for an acceptable maintenance agreement for the park like lids over Hwy 520 at 84th Avenue NE and 92nd Avenue NE;
• Complete a successful fiscal audit (no findings) of the City’s finances & operations (see following performance measures labeled “Strong Financial Management Practices”);
• Manage the City’s Traffic Program;
• Maintain the City’s eligibility as a Tree City USA;
• Continuously issue the Weekly Administrator’s Report and the bi-monthly City Newsletter;
• Develop 2021 Budget;
• Issue quarterly financial reports;
• Continue to assist the community with tree / view issues while implementing revised view regulations;
• Carry out the City’s Investment Program per the Investment Policy and support the Investment Committee for oversight purposes;
• Manage the City’s Social Media Policy;
• Manage the City’s e-Records Management System;
• Continue to keep the City in compliance with the Washington Cities Insurance Authority’s (WCIA) Compact of Membership requirements and provide: 1) cost effective risk management services; 2) safe working conditions; and 3) avoid City vehicle accidents;
• Complete initial Phase of the Facilities Master Plan;
• Coordinate activities for a successful Community Celebration, Arbor Day and Parade of Pumpkin Display Event;
• Negotiate a new CBA with the Police union;
• Acquire emergency management training for all staff and officials;
• Participate in process to surplus excess equipment; and
• Enhance the City’s web site.

Projections.

As one of the initial steps in preparing the annual budget, the budget participants review the City’s most recent performance measurement data in the form of the City of Clyde Hill Dashboard Report. The most recent report reviewed in August 2019 contains data from 2018. This report is presented at the first budget study session to kick-off the budget development process with the following objectives in mind:

• Provide transparency and accountability to all stakeholders interested in evaluating the performance of the City of Clyde Hill in a quick to read and quantifiable report;
• Assist participants in the annual budget development process with a tool to help them identify potential problems and allocate the limited financial and human resources available to accomplish the intended outcomes for the City; and
• Continually improve this reporting method with a wide ranging, yet manageable group of performance measures that has minimal impact on productive staff time in terms of data gathering.

Below is financial management performance information from the Dashboard Report. Performance data for the General Government Department is presented in the “Quick Glance Report Card Summary” format used in the City of Clyde Hill Dashboard Report. The budget participants received the supporting data at the budget study session for review (detailed supporting data is available upon request).

</tr>
</tbody>
</table>
Although there was a significant spike in cases filed during 2015, that number has continued to drop. Revenue in relation to expenses increased somewhat this year, meaning slightly less of a cost for the City.

The variance between the “most likely case” and the Year End Actual was significantly larger than the target max of (12.3% vs. 2.5%, respectively; the City collected much more than was expected).

The variance between the “most likely case” and the Year End Actual was significantly larger than the target max of (24.0% vs. 2.5%, respectively; the City spent much less than was expected).

The ratio of the Reserve Fund balance to General Fund total expenditures continues to comply with the City Council’s long standing policy guidelines.

General Fund Expenditure Data.

This following chart shows General Government Department expenditure growth in terms of constant dollars (no inflation) and as a percent of total general fund expenditures over the 20 years.
The Police Department is primarily a part of the General Fund and includes the Chief of Police, Kyle Kolling, Lieutenant Dawn Hanson, Records Manager Kirsty Jones and Officers Nathan Cobrea, Tyler Glenn, Beatus Swai, Raja Stroble, Michael Humphreys, Brandon Lyon and Ian Jennings (plus ½ the cost of the Finance Manager is charged to this department). The City Council authorized the filling of the 7th Officer position at their November, 2015 regular meeting.

The Criminal Justice Department in the Projects Fund is used to account for restricted criminal justice sales tax revenue, some State shared revenues and reimbursements from the police services contract with the Town of Yarrow Point. All police salary, benefits and most operating costs are paid from the City’s General Fund.
The Police Department provides a fully trained and equipped 10-member police service on a 24-7 basis. The department is responsible for the 3,000 residents in Clyde Hill, the 1,000 residents in the Town of Yarrow Point and the approximately 2,500 students and staff attending the two public and two private schools in Clyde Hill.

The current collective bargaining agreement with the Clyde Hill police officers runs through December 31, 2020.

Per the inter-local agreement with the Town of Yarrow Point, 25% of the operating and capital costs for the Police Department are reimbursed to Clyde Hill by Yarrow Point.

Clyde Hill contracts with the following public entities for criminal justice services: North East King County Regional Public Safety Communication Agency (NORCOM) for dispatch service, City of Kirkland for municipal court, and a number of entities for jail services.

Fire, Emergency Medical and Hazardous Materials are contracted for with the City of Bellevue. The Clyde Hill Police Chief monitors this service and is the primary contact.

Necessary criminal justice type expenditures charged to this department include:

- Civil Service Commission (hiring process and any discipline issues);
- Prosecutor for municipal court cases;
- Filing fees for municipal court cases;
- Indigent defense for municipal court cases;
- Dispatch (NORCOM);
- Patrol vehicles for the officers (five total) plus a take home vehicle for the Chief;
- Detention facilities (aka "jail");
- Uniforms, weapons, ammunition, training, fuel, vehicle repairs and all the other miscellaneous expenditures you would expect to run a Police Department; and
• Emergency preparedness supplies and training.

2020 Targets & Projections.

Target Issues.

• Maintain crime data and traffic safety data near or below the previous year’s level (see performance measures labeled “Community Safety and Security”);
• Continue to provide timely police response times of under six minutes for more than 80% of calls (see performance measures labeled “Community Safety and Security”);
• Monitor City of Bellevue fire and EMS incident response times to ensure residents are receiving good service for this contracted service (see performance measures labeled “Community Safety and Security”);
• Monitor the data provided by the City of Bellevue Fire Department for the better than national average statistic on the percentage of patients responded to that were in cardiac arrest and/or ventricular fibrillation who were resuscitated and subsequently released from the hospital (e.g., survival rate for heart related EMS incidents; see performance measures labeled “Community Safety and Security”);
• Complete the Police Security Project by installing the last of the new security locks and installing City Hall CCTV;
• Cooperate with a timely response to any auditor inquiries as part of the Annual Audit conducted by the State Auditor’s Office (SAO);
• Contribute information and advice when called upon by the City’s Traffic Management Committee;
• Purchase 12 new service rifles, four new Police Radios and a new Police SUV;
• Recruit officer positions as needed (on-going goal each year when vacancies occur);
• Continue to actively participate in the Coalition of Small Police Agencies in King County (“Strength through Cooperation”);
• Continue to provide pass-through resources to help mitigate eastside domestic violence and child abuse;
• Continue participation in the City’s Performance Measurement Program by submitting crime statistics to the National Incident Based Reporting System (NIBRS) via the Washington Association of Sheriffs and Police Chiefs (WASPC) for inclusion in their annual report;
• Facilitate the annual “Shred It” event at the Annual Celebration Event in August each year as a way to prevent identity theft;
• Explore the opportunity of an SRO with BSD 405 & BCS;
• Participate in eastside DUI emphasis patrols (when possible) throughout the year;
• Continuously issue the Sentinel; and
• Become an accredited police agency.

Projections.

Below is financial management performance information from the Dashboard Report. Performance data for the Police Department is presented in the “Quick Glance Report
Card Summary” format used in the City of Clyde Hill Dashboard Report. The budget participants received the supporting data at the budget study session for review (detailed supporting data is available upon request).

</tr>
</tbody>
</table>
While the average response time increased slightly, the number of emergency police calls dropped again. The result is a higher percentage of calls being responded to within six minutes or less.

Although there has been a slight decrease in the number of incidents, response times have slightly increased.

King County and Bellevue have not yet completed their analysis of the cardiac save rates for last year.

**Caution:** Crime statistics above can be heavily influenced by the population disparity between the City of Clyde Hill and some of the larger neighboring communities. However, the City feels that these are still worthwhile performance measures and would point out a problem for correction if one existed.

**General Fund Police Department Expenditure Data.**

The Police Department day-to-day operating costs are primarily included in the City’s General Fund. The Criminal Justice Department is part of the City’s Projects Fund (aka Special Revenue Fund) and has been used in the past to account for capital assets (e.g., police vehicles) and special police programs. The Criminal Justice Department in the Projects Fund has a restricted revenue source of its share of the 0.1% of sales tax collected in King County.

This following chart shows the growth in terms of constant dollars and as a percent of total general fund expenditures over the past decade plus. The chart below shows total police expenditures recorded in both the General Fund and the Criminal Justice Department of the Projects Fund.
**General Fund Fire Department Expenditure Data (Contract with the City of Bellevue).**

The City of Clyde Hill contracts with the City of Bellevue for Fire Department Services including emergency medical and hazardous materials response. Emergency preparedness type activities are primarily a City of Clyde Hill Police Department responsibility. The Fire Department services are accounted for in the General Fund.

The following chart shows Fire Department expenditure growth in terms of constant dollars and as a percent of total general fund expenditures over the past decade. The fire contract with the City of Bellevue and Clyde Hill along with a number of other small neighboring communities was renegotiated for the 2012 budget using a new formula for how costs are distributed between the cities and towns receiving services. As a result, the subsequent annual costs for this service to Clyde Hill decreased substantially from the peak in 2010 but has recently jumped again due to renegotiations again in 2017 as well as new labor rates recently negotiated by the firefighter union and the City of Bellevue in 2018.
The Public Works & Building Department is part of the City's General Fund and includes the Public Works Director Arnie Clark, Building Official Rich Soloski, Building Inspector/Public Works Crew Member, John Young, Public Works Crew Member Tyler Bender, and = Public Works Crew Member Aaron Murk. One-third of the salary and benefits for Deputy City Clerk/Code Enforcement Officer, Teri Tupper, is charged to this department for building department intake services at the City Hall front counter and providing code information to builders and homeowners. As of mid-2014, the Building Official and Building Inspector duties are no longer shared via an inter-local agreement with the City of Medina.

The Public Works Department shares responsibility for administering expenditures made from the Housing and Capital Projects Department in the Projects Fund. All salary, benefits and operating expenditures for the Public Works and Buildings Department are made from the City's General Fund.
This department provides the following tangible benefits to Clyde Hill residents:

- **Street Operations** (includes the installation and maintenance of signs, signals, lighting, street sweeping, right-of-way vegetation maintenance, on-call snow plowing and ice control and 24-7 disaster response);
- **Roadway Improvements** (includes road overlays, patches, street striping, crack sealing and curb painting);
- **Storm Drainage** (includes system cleaning and maintenance, including catch basin and storm drain repairs and maintenance);
- **Sidewalks, Pathways & City Entrances** (includes Points Loop Trail, path along 84th Ave, sidewalk construction and repair, mowing, trimming, weeding and maintaining the attractive city entrance areas);
- **Building Code Services** (includes one-on-one code information, plan reviews, building permits, other permits, inspections, Planning Commission, Hearing Examiner, tree/view mitigation assistance, code enforcement and no cost professional landscape and arbor advice to help avoid future view issues); and
- **Park Facilities** (includes the 26th St View Park, the City Park & Tennis Courts, 24th St parking lot and picnic area and Arbor Day trees with informative plaques throughout the City).

**2020 Targets & Projections.**

**Target Issues.**

- Update the City’s annual Pavement Rating Condition Survey for use with developing the annual Transportation Improvement Plan (TIP; see performance measure below labeled “Reliable Public Infrastructure and Utilities”);
- Facilitate the redevelopment of Bellevue Christian School;
- Acquire/deploy striping and road repair services;
- Update the Building Valuation Matrix;
- Manage the Vegetation Maintenance Program;
- Update the Transportation Improvement Program;
- Complete all 2020 stormwater projects (87th Ave, Aqua Vista, 24th St, the Frame/Grate Replacement Program and the Storm/Road Maintenance Program);
- Monitor resident complaints regarding solid waste, yard waste and/or recycling service provided by Republic Services and work with the provider to resolve any systemic issues (see performance measure labeled “Reliable Public Infrastructure and Utilities”);
- Continue to provide timely inspections for new home construction and remodeling projects (see performance measure labeled “Effective and Efficient Public Service Delivery”);
- Successfully implement the City’s Comprehensive Stormwater Management Plan;
- Manage 2020 street overlay and complete designs for 2021 street overlays;
- Manage the National Pollution Discharge Elimination System (NPDES) grant and remain compliant with regulations;
- Purchase a new sander and anti-icing tank;
- Respond in a timely manner to audit requests during the Annual Audit process;
- Acquire and deploy striping services in 2020; and
- Continue participation in the City’s Performance Measurement Program.

Projections.

Below is financial management performance information from the Dashboard Report. Performance data for the Public Works and Building Department is presented in the “Quick Glance Report Card Summary” format used in the City of Clyde Hill Dashboard Report. The budget participants received the supporting data at the budget study session (detailed supporting data is available upon request).

General Fund Expenditure Data.

This chart below shows the Public Works / Building Department expenditure growth in terms of constant dollars (e.g. no inflation) and as a percent of total general fund expenditures over the past decade. The spike in 2008 was primarily due to extra work done on storm drains along the City’s right-of-ways (ROW). Stormwater maintenance is the primary reason for the increase in 2015 over the previous year and the new, third Public Work Crew Member is the primary reason for the 2016 increase.

Public Works / Building Dept Expenditures (In Constant Dollars)

capital projects.

Capital Projects are primarily managed by the Public Works / Building Department. Most capital projects are street overlays, sidewalks and the storm sewer system. Normally, the City contracts with an engineering consultant to help design, engineering and bid projects that are awarded to local qualified contractors. The engineering consultant is charged to the capital project and not the operating budget.

As of the 2018 Budget, there have been no significant nonrecurring capital investments that will affect the current or future operating budgets nor impact the services that the City provides to residents. Also, there are no anticipated savings or revenues expected to result from significant nonrecurring capital investments.
Capital improvements will have a minimal impact on the City’s operating budget. The Capital Projects Department uses restricted Real Estate Excise Tax (REET) money which is non-operating budget money, to hire an outside professional engineering firm to draw up plans to be bid by road overlay and/or sidewalk contractors in 2020. The Public Works Director’s and City Administrator’s time to contract with an outside engineering firm to draw up the plans for bidding and then administering the bid process is paid out of the operating budget. The Public Works Director’s time to monitor construction projects is paid for in General Fund.

**Capital Projects Expenditure Data.**

This following chart shows Capital Project expenditures in terms of actual (e.g. not constant) dollars and as a percent of total City expenditures. The high number of expenditures in 2007 was due to a combination of issues: 1) bids from the previous year were received latter in the year and not considered a good value at that time; 2) previous year projects were combined with projects originally planned for 2007; and 3) two projects planned for the following year that were located in close proximity to the 2007 projects were accelerated as 2007 projects to get the benefits from economies of scale.

Capital Projects are funded with Real Estate Excise Tax (REET) that the City receives from King County when the title to real property is transferred from Grantor to the Grantee. The City of Clyde Hill receives 0.005% of the sales price minus 1.3% for a collection fee retained by King County. For example, a $3,000,000 home sale in Clyde Hill would result in $14,805 being deposited to the City’s bank account on the 10th day of the following month after the real property title is transferred.

One guiding principle the City Council has been following is the “matching” of REET revenues to capital expenditures. The chart below illustrates this relationship best in 2010 when the housing market in Clyde Hill was close to frozen due to the national economic recession conditions being experienced. Capital expenditures were scaled back to match the lower amount of REET revenues being received.
The expenditure spike in 2012 was the 84th Ave NE roadway project (Clyde Hill served as lead agency with Medina; Clyde Hill records all the expenditures for the project and the reimbursement from the City of Medina cannot be netted with the expenditures per the State Auditor’s Office). The huge spike in 2018 involves the completion of the 84th Ave NE Project from NE 24th Street to the recently completed SR-520 bridge project including new signal lights at the corner of NE 24th and 84th Ave. Clyde Hill is again the lead agency for this project with costs being share with the City of Medina (no netting allowed per the State Auditor’s Office).
MISCELLANEOUS INFORMATION & STATISTICS
GENERAL INFORMATION

In response to the community’s desire to control land use development such as lot size and commercial zoning, Clyde Hill was officially incorporated as a Town on March 31, 1953 with 971 people and 271 homes. Clyde Hill now finds itself almost fully developed with approximately 3,000 residents living in approximately 1,100 homes. On November 10, 1998 the Clyde Hill Council voted to become a non-charter Code City.

All the property in Clyde Hill is zoned for single-family, governmental, or school use with the exception of two commercially-zoned lots: a gas station near SR-520 and coffee shop on Points Drive. Four schools are located within Clyde Hill: two public schools – Clyde Hill Elementary and Chinook Middle School; and two private schools – Bellevue Christian School and Sacred Heart School. There are approximately 2,500 students and staff in attendance at the City’s four school locations.

The minimum lot size in the City is 20,000 square feet, although many smaller lots exist which pre-date the incorporation of the City. With a top elevation close to 375 feet, the City encompasses an area of about one square mile. There are approximately 21 miles of public roadways.

GOVERNMENT

Mayor and City Council.
Clyde Hill is a Non-Charter Code City governed by a Mayor-Council form of government. The Mayor and five Councilmembers are elected at-large to staggered, four-year terms. The City Council meets on the second Tuesday of each month at 7:00 PM at City Hall.

The Mayor serves as the Chief Executive Officer of the City and has the authority to appoint members to serve on various Boards and Commissions, as well as special advisory committees that are described below. The City Council’s primary responsibility is to establish the policy, direction, and goals for the City. The governing laws of the City are adopted by the Council through specific ordinances and are subject to the State laws of the Revised Code of Washington. The City’s laws are embodied in the Clyde Hill Municipal Code.
Planning Commission.
The Planning Commission is appointed for four-year terms. The Commission consists of five members serving in an advisory capacity to the City Council on matters involving zoning, land use, and long-range planning. The Commission also serves in a quasi-judicial capacity for the City as it relates to view/sunlight complaints. The Planning Commission meets as needed on the fourth Thursday of each month at 7:00 PM at City Hall.

Civil Service Commission.
The Civil Service Commission is appointed for four-year terms and consists of five members. The Commission has jurisdiction over full-time Police Department personnel in matters relating to testing and disciplinary appeals. A Secretary/Chief Examiner provides support and assistance to the Commission and is responsible for the administration of all testing.

CITY STAFF

The organization of the City is shown on the attached organization chart. The City government currently has 20 full time employees. The following provides a more detailed insight into the activities and the specific people working for the City.

City Administrator.
In 1986, the position of Administrator was created by the City Council to oversee the daily operation of all departments and personnel of the City. The Administrator is appointed by the Mayor and reports directly to the Mayor regarding all City matters. The Administrator is responsible for ensuring that the policy set by the City Council is carried out in an efficient, cost effective, and timely manner. In addition, the Administrator works with the Mayor and the City Council on technical issues regarding the budget, implementing various Clyde Hill programs, coordinating the activities of other levels of government, and the area communities as well as assists in the development and formulation of the City’s long range objectives, vision, and image. The City Administrator also officially serves as the City’s City Clerk, Treasurer, SEPA Official, and Public Records Official. In 2016, the position of Assistant City Administrator was created by the City Council to assist the City Administrator in the aforementioned responsibilities.

Public Works Department.
The Public Works Department is responsible for all the street, stormwater, parks, landscaping, engineering, and Right-Of-Way related activities in the City. The Public Works Department also encompasses the activities of the Building Department. The Building Department’s responsibilities include the review of building permit plans, plats and subdivisions, the inspection of construction activity related to private projects, and the enforcement of all building related Federal, State, and City Codes.

The Public Works Department coordinates all the utility work in the City as well as with
adjoining municipalities for joint improvement projects. The Public Works Department insures the maintenance and repair of roadways, parks, landscaping, equipment, and the stormwater system for the City. The Public Works Department is responsible for the installation, maintenance, and revision of all street signs, signals, and other traffic devices. The Public Works Department personnel are available to respond to emergency conditions such as a severe storm or the control of ice and snow on the City’s roadways.

The Public Works Director oversees the daily operation of the Clyde Hill Public Works Department. It is the responsibility of the Director to ensure that all work is completed in a proper, timely, and cost-effective manner.

Deputy Clerks.
There are two Deputy Clerks who provide a variety of assistance to citizens at the City Hall. The first Deputy Clerk works full-time at the front desk at City Hall and answers zoning questions, processes applications for building permits, variances, demolitions, mechanical, public use permits, and street permits. This position is also the City’s Code Enforcement Officer, works closely with the Public Works Department, is the staff support person for the Hearing Examiner, and is the editor for the City’s Newsletter and website.

The second Deputy Clerk also works full-time in a variety of capacities at City Hall, including directing phone calls and answering questions on current issues, processing accounts payable, support to the Administrator, City Council, Planning Commission, and is a Special Projects Coordinator including the City’s annual Movie Night, Community Celebration, and Pumpkin Display.

Finance Department.
The Finance Department provides the City with a full range of financial and accounting services. These services include the coordination and preparation of the City's annual Budget and Capital Improvements Plan, on-going financial reporting and analysis, investment services, accounts payable, and accounts receivable.

Annually, the City Council adopts an operating budget for the City. This process begins in June with final budget adoption in December. The City Council reviews all revenues and expenditures for the City at their monthly meetings. An Investment Committee compromising the Mayor, two Councilmembers, the Treasurer, and the Finance Manager make all investment decisions for the City.

On an annual basis the State Auditor’s Office audits the City's financial books and its compliance with various other requirements.

Prior to 1987, Clyde Hill was served by an elected Treasurer. In 1987, the Council combined the Treasurer and City Clerk position to create the Clerk/Treasurer position, which is appointed by the Mayor. The City Administrator holds that position.
Police Department.
The Clyde Hill Police Department consists of a Chief of Police, a Lieutenant, an authorized force of seven full-time officers, and a Records Manager. The Clyde Hill Police Department provides police services by contract to the residents of Yarrow Point. Dispatch services are provided by contract through the North East King County Regional Public Safety Communication Agency (NORCOM).

The Clyde Hill Police Department responds to approximately 4,600 calls for service each year. The City’s crime index, a measure of the crime rate per thousand citizens, is second lowest in the State (the first being Yarrow Point).

The Police Department is committed to working closely with the citizens of Clyde Hill and Yarrow Point and is anxious to respond to the needs and desires of the community. The Department also believes in working closely with the community by fostering a relationship of trust, respect, and understanding.

The Department uses general patrolling in an effort to detect and deter crime. In conjunction with that effort, a heavy emphasis on traffic enforcement is provided, which improves the safety of the community and heightens police visibility.

The Records Manager doubles as an Office Manager in the Department, answering phone calls, responding to questions, processing record requests, and generally supports the entire operation of the Department.

**CONTRACTED OR FRANCHISED SERVICES**

The City contracts with the City of Bellevue to operate Fire Station #5, located on NE 24th Street right next to the City Hall. Water and sewer services are also provided through the City of Bellevue, who acts as a regional utility. Clyde Hill has established a Municipal Court through the City of Kirkland and contracts with King County to provide animal control services.

The City has granted agreements to a number of other utilities to provide services to City residents including, but not limited to, Republic Services (garbage, yard waste and recycling service), Comcast (cable, phone, and internet service), Puget Sound Energy (electrical and natural gas service), and Qwest (telephone service, including DSL internet service).

Other contracted services specific to positions include, but are not limited to, the City Attorney, the Hearing Examiner, the City Arborist, the Civil Service Commission Secretary, the City Prosecutor, the Public Defender, and the IT Manager.
The City has agreements with a number of other utilities to provide services to City residents: Republic Services (formerly Allied Waste Services of Bellevue – garbage, yard waste and recycling service); Comcast (cable television service, internet & VoIP); Puget Sound Energy (electricity & natural gas service); and Century Link (local telephone access service). The City will lease six wireless communication facilities to four different telecommunication companies in 2020 (the future is uncertain for this revenue source for the City due to changes in technology and cost cutting mergers of companies).

GENERAL INFORMATION

- There are 21 miles of public roads maintained by the City of Clyde Hill;
- There are 16 miles of storm sewers maintained by the City;
- The total area of Clyde Hill is approximately one square mile;
- There are 906 catch basins & 72 man holes maintained by the City;
- Elevation in Clyde Hill is 375 feet above sea level (great for water, city, and mountain views, but more likely to receive snow instead of rain in the winter);
- Clyde Hill Sales Tax Code is 1708;
- The City has six Police vehicles (all SUV type vehicles with four-wheel drive);
- The City has four Public Works vehicles (three are equipped with snow plows; one has a deicer sprayer and one has a sander) along with a backhoe and a flatbed trailer;
- SR-520 passes through the north part of the City of Clyde Hill with approximately a dozen homes north of the highway;
- The City’s web site is www.clydehill.org;
- The City is a member of the Washington Cities Insurance Association (WCIA);
- The City is a member of the Puget Sound Regional Council (PSRC);
- The City is a member of the Sound Cities Association (SCA);
- The City is a member of the Association of Washington Cities (AWC);
- The City is a member of the Regional Animal Services of King County (RASKC);
- The City is a member of the Government Finance Officers Association (GFOA);
- The City has been a Tree City USA Award Winner since 1993; and
- The City’s wellness program has won the AWC WellCity Award the past nine years.
The City of Clyde Hill is bordered by the Cities of Kirkland, Bellevue, Medina and the Towns of Hunts Point and Yarrow Point. Clyde Hill is five minutes from downtown Bellevue and 15 minutes from the University of Washington across the newly constructed SR-520 floating bridge. Seattle is just to the west of Clyde Hill on the other side of Lake Washington.

**HISTORICAL DATES**

The present day area of Clyde Hill was first settled in September, 1882. The Town of Clyde Hill was incorporated on March 31, 1953 (a few hours before the City of Bellevue). The Town of Clyde Hill became the City of Clyde Hill in 1998. Please see the City’s website at [www.clydehill.org](http://www.clydehill.org) for a more in-depth narrative.
FORM OF GOVERNMENT

The City of Clyde Hill is classified as a Non-Charter Code City. Legally, a city in Washington can be described primarily by its class. There are five classes of cities in Washington:

- First class cities
- Second class cities
- Towns
- Unclassified cities
- Code cities

Code cities were created by the State Legislature in order to grant the greatest degree of local control to municipalities possible under the state constitution and general law. This classification has been adopted by the majority of municipalities in Washington, including Renton, Bellevue, Olympia, Longview, Pullman and University Place.

Code cities (shorthand for optional municipal code cities, as encoded by Title 35A RCW) are authorized to perform any function not specifically denied them in the State Constitution or by State Law. They may perform any function granted to any other city classification under Title 35 RCW.

The City of Clyde Hill operates under the Mayor – Council form of government. Most cities in Washington have this form of government, which calls for an elected mayor and an elected city council, including Seattle, Spokane, Kent, Everett, Bremerton and Bellingham. The main alternative in Washington State is the Council – Manager form of government. Cities with an elected council and appointed city manager include Yakima, Vancouver, Tacoma, Bellevue and Kennewick.

The Mayor and the City’s five councilmembers serve staggered four-year terms.

POPULATION

The Washington State Office of Financial Management’s estimate of Clyde Hill’s population as of April 1, 2019 was 3,055. This is an important number for the City due to multiple State shared revenues being based on the annual population estimate. The 2010 Census “trued-up” this number and serves as the basis for population estimates for the next 10 years.

From empirical evidence only, it appears that younger families have been moving back into Clyde Hill more frequently in the past few years. This observation appears to be somewhat true with 94 more people counted in the 2010 census over the 2000 census. There are 2,156 active registered voters in the City of Clyde Hill as of November, 2015 per King County Election Services (most recent data available).
**LAND AREA**

Land area of the City of Clyde Hill is approximately one square mile. In addition to the scenic water views, Seattle and Bellevue city views, and Olympic and Cascade mountain views, one distinguishing characteristic for Clyde Hill is the rural nature feel of the community while still being less than five minutes from shopping at Bellevue Square.

**HOUSEHOLD INCOME**

**Median household income in Clyde Hill in 2010:**
- **Clyde Hill:** $193,599
- **State:** $56,548

For comparison, median household income in 1999 per the last Census in 2000 was $132,468.

**Source:** U.S. Census Data
INVESTMENT POLICY

City of Clyde Hill, Washington
January, 2006

1.0 Policy
It is the policy of the City of Clyde Hill to invest public funds in a manner consistent with the greatest safety and protection for the City’s investments. This investing of funds will, while protecting the safety of the City’s investment, produce the highest investment return for meeting the cash flow requirements of the City and conform to all Washington State statutes, City ordinances and policies governing the investment of public funds.

2.0 Scope
This investment policy applies to all financial assets of the City of Clyde Hill. These funds are accounted for in the City’s Annual Report, and include:

2.1 Funds
2.1.1 General Fund (Number 001)
2.1.2 Reserve Fund (Number 002)
2.1.3 Projects Fund (Number 100)
2.1.4 Any new Funds created by the Council, unless specifically exempted by the City Council.

3.0 Prudence
The standard of prudence to be applied by the Investment Officer in managing the City’s overall portfolio shall be the “Prudent Person Rule” which states:

“Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.”

The Investment Officer and other Investment Committee Members, acting in accordance with this Investment Policy and exercising due diligence, shall not be personally responsible for any investment losses sustained by the City, provided deviations from expectations are reported in a timely fashion and appropriate action is taken to control adverse developments.
3.1 **Public Trust**
All participants in the investment process will seek to act responsibly as custodians of the public trust. Investment officials shall recognize that the investment portfolio is subject to public scrutiny and evaluation. In addition, the overall investment program shall be designed and administered with a degree of professionalism worthy of the public trust. Investment officials shall also refrain from any transaction that might knowingly impair public confidence in the City’s ability to govern effectively.

4.0 **Objective**
The funds of the City of Clyde Hill will be invested in accordance with the Constitution of the State of Washington, applicable statutes (Revised Code of Washington (RCW), City ordinances, resolutions, and Council direction. The objectives below are listed in order of importance.

4.1 **Safety**
Safety of principal is the primary objective of the City’s investment program. Investments of the City shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. To achieve this objective, diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

4.2 **Liquidity**
The City of Clyde Hill’s investment portfolio will remain sufficiently liquid to enable the City to meet all operating and capital requirements, which might reasonably be anticipated.

4.3 **Return on Investment**
The City’s investment portfolio shall be designed with the goal of attaining a market rate of return throughout budgetary and economic cycles, taking into account the City’s investment risk constraints and the cash flow characteristics of the portfolio.

The Investment Portfolio shall be designed to meet the above investment objectives. The City’s investment strategy shall lean toward conservative and passive investments.

5.0 **Delegation of Authority**

5.1 **Investment Policy and Implementation**
The City Council will periodically review the overall Investment Policy as it relates to the City’s financial objectives and make any necessary modifications to the Policy. The Council will appoint the members of the Investment Committee and will periodically direct the Investment Committee as to the investment policies to be implemented.
5.2 **Investment Committee**
The membership of the City’s Investment Committee shall include the Treasurer, Finance Manager, Mayor, and two members of the City Council. The Committee shall meet at least 3 times per year to review the City’s current investments and provide the Treasurer with guidance on any further investment decisions. The Committee shall meet to determine general strategies and monitor results. The Investment Committee shall include in its deliberations such topics as: economic outlook; portfolio diversification and maturity structure; potential risks to the City’s funds; authorized depositories, brokers and dealers; and the target rate of return on the investment portfolio.

5.3 **Investment Officer**
The City of Clyde Hill’s Treasurer is designated as the Investment Officer of the City and is responsible for implementing investment decisions and activities with the guidance of the City’s Investment Committee.

The Treasurer shall establish and maintain written procedures for the operation of the investment program consistent with this Investment Policy. Such procedures shall include explicit delegation of authority to persons responsible for the implementation of the investment transactions. No person may engage in an investment transaction except as provided under the terms of this Policy, and the procedures established by the Treasurer. The Treasurer will be responsible for all transactions undertaken and will institute a system of controls to manage the actions of treasury employees. This system of controls will include protections such as dual signatures to transfer funds.

6.0 **Ethics and Conflicts of Interest**
Officials and employees involved in the investment process shall refrain from personal business activity which could conflict with proper execution of the investment program, or which could impair their ability to make unbiased investment decisions. Employees and investment officials shall disclose to the City Council any material financial interests in financial institutions that conduct business for the City, and they shall further disclose any large personal financial/investment positions that could be related to the performance of the City’s portfolio. Employees and officers shall subordinate their personal investment transactions to those of the City, particularly with regard to the timing of purchases and sales.

7.0 **Qualified Institutions**
The Treasurer will maintain a list of financial institutions and security dealers authorized to provide banking and investment services to the City.

7.1 **Financial Institutions**
The selection of the City’s bank(s) will be made from the list of Qualified
Public Depositories approved by the Washington Public Deposit Protection Commission as authorized to provide investment services (RCW. 39.58.080).

Banks having a deposit relationship with the City shall provide the Treasurer with appropriate financial statements upon request.

### 7.2 Security Dealers
The security dealers and financial institutions may include “primary” or regional dealers that qualify under Securities and Exchange Commission Rule 15C3-1 (See “Uniform Net Capital Rule” in Glossary) and investment departments of local banks, any of which have been subjected to the following evaluation by the Investment Committee:

- **7.2.1** Financial condition, strength and capability to fulfill commitments
- **7.2.2** Overall reputation with other dealers and investors
- **7.2.3** Regulatory status of the dealer
- **7.2.4** Background and expertise of the individual representative.

Individuals representing firms doing business with the City shall receive a copy of the Policy, and shall certify, in the format prescribed by the Government Finance Officers Association (GFOA), that they have read it and understand the provisions therein. A copy of such certification, along with financial statements (both current and annual audited), shall be kept on file and reviewed annually.

### 8.0 Authorized and Suitable Investments
As contemplated in the Revised Code of Washington Section 35.39.032, the Treasurer of the City is authorized on behalf of the City and in accordance with the investment decisions of the Investment Committee to invest all money in the City Treasury which, in the judgment of the Treasurer, are in excess of current City needs. These excess funds can be invested in the following instruments:

- **8.1** Investment deposits, including certificates of deposit, with qualified public depositories as defined in RCW Chapter 39.58. No more than $500,000 will be invested with any one institution.
- **8.2** Certificates, notes, bonds, or any other obligations of the United States, including Treasury bills and Treasury bonds. (RCW Section 43.84.080, 36.29.020)
- **8.3** The State of Washington Local Government Investment Pool. (RCW Chapter 43.250)
- **8.4** Federal Agency Securities are limited to Federal Home Loan Banks. (RCW Section 39.59.020 and Section 43.84.080)

### 9.0 Safekeeping and Custody
All securities transactions entered into by the City of Clyde Hill shall be conducted on a delivery-versus-payment (DVP) basis. Securities purchased by the City of Clyde Hill will be delivered against payment and in a custodial
safekeeping account. The City Treasurer will designate a third party custodian and safekeeping receipts will evidence all transactions.

10.0 **Diversification**
It is the policy of the City to diversify its investment portfolio to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific insurer or issuer, or a specific class of securities.

10.1 **Diversification by Instrument**

<table>

It is the Policy of the City to keep only minimal balances within its operating and payroll checking accounts to cover any outstanding checks and pay for monthly bank fees with the earnings credit received on the bank balance maintained. Periodically, the City has provided long term financing to LIDs within the City limits. For purposes of determining the “Max % of Portfolio”, the City’s operating, payroll & petty cash accounts and outstanding balances of LIDs will be considered as part of this calculation.

11.0 **Maximum Maturities**
To the extent possible, the City of Clyde Hill will attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the City will not directly invest in Certificates of Deposit or U.S. Treasury securities having a maturity date of more than 24 months from the date of purchase. To provide limited investment flexibility and to take advantage of market conditions when appropriate, the City may invest in Federal Agency Securities having a maturity date of no more than two years from the date of purchase.

12.0 **Internal Control**
The Treasurer shall establish an annual process of independent review by the State auditor or an external auditor. This review will provide internal control by assuring compliance with policies and procedures.

13.0 **Performance Guidelines**
The City shall use the average rate of return of the Local Government Investment Pool of the State of Washington as a benchmark to measure the performance of the City’s investment portfolio. This performance standard shall take into account the City’s investment risk constraints and cash flow needs.

14.0 **Reporting**
The Treasurer is charged with the responsibility of monthly and quarterly reporting on the investment portfolio.

14.1 **Monthly Reports**
As part of the monthly Financial Statements, the Treasurer will provide
information to the Council regarding the current status of the investment portfolio, including investment activity, location, type of investment, maturities, yields and evidence of the actual investments acceptable to the Council.

14.2 Performance Reports
The Treasurer shall submit to the Investment Committee at each meeting an investment report that summarizes the investment strategies employed since the last report, description of the portfolio in terms of investment securities, yields, maturities, risk characteristics and other features. The report shall explain the total investment activity, as well as compare the return on investment with both the target rate of return projections and budgetary expectations.

15.0 Investment Policy Adoption
The City’s Investment Policy shall be adopted by Resolution of the City Council. The Treasurer shall review the Policy periodically. The Council must approve any modifications made to the Policy.
ORDINANCE NO. 970

AN ORDINANCE OF THE CITY OF CLYDE HILL, WASHINGTON, LEVYING THE GENERAL TAXES FOR THE CITY OF CLYDE HILL IN KING COUNTY FOR THE FISCAL YEAR COMMENCING JANUARY 1, 2020, ON ALL PROPERTY, BOTH REAL AND PERSONAL, IN SAID CITY WHICH IS SUBJECT TO TAXATION FOR THE PURPOSE OF PAYING SUFFICIENT REVENUE TO CARRY ON THE SEVERAL DEPARTMENTS OF SAID CITY FOR THE ENSUING YEAR AS REQUIRED BY LAW; PROVIDING FOR SEVERABILITY; PROVIDING FOR SUMMARY PUBLICATION BY ORDINANCE TITLE AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City Council of the City of Clyde Hill, after public hearing and having considered the City's anticipated financial requirements for the year 2020, and the amounts necessary and available to be raised by ad valorem taxes on real, personal and utility property; and

WHEREAS, the City Council of the City of Clyde Hill after hearing and after duly considering all relevant evidence and testimony presented, determined that the City requires a regular levy in the amount of $1,014,864, which does not include an increase in property tax revenue (0% or 0%) from the previous year and does not include amounts resulting from the addition of new construction and improvements to property or any increase in the value of state-assessed property or amounts authorized by law as a result of any annexations that have occurred. It does however, include any omitted assessment levy or re levy for prior year refunds made ($891), in order to discharge the expected expenses and obligations of the City and in its best interest; NOW, THEREFORE,
THE CITY COUNCIL OF THE CITY OF CLYDE HILL DO ORDAIN AS

FOLLOWS:

Section 1. There shall be and hereby is levied on all real, personal and utility property in the City of Clyde Hill, King County, Washington, subject to taxation, taxes for the year 2020, the sum of $1,014,864, representing no increase ($0) in the regular property tax levy or a 0% percentage increase from the previous year. This levy amount also does not include any additional revenue resulting from the addition of new construction or improvements to property and any increase in the value of state assessed property, or any additional amounts resulting from any annexations that have occurred. By taking this action, the City will have a cumulative property tax banked amount of $198,019.

This levy amount includes additional revenue resulting from omitted assessments or relevy for prior year refunds ($891).

Section 2. This ordinance shall be certified to the proper County officials, as provided by law, and taxes here levied shall be collected to pay to the Treasurer of the City of Clyde Hill at the time and in the manner provided by laws of the State of Washington for the collection of taxes for code cities.

Section 3. **Severability.** If any section, sentence, clause or phrase of this ordinance should be held to be invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect the validity or constitutionality of any other section, sentence, clause or phrase of this ordinance.

Section 4. This ordinance shall take effect on January 1, 2020, which is more than five (5) days after publication of the attached approved summary thereof consisting of the title.
PASSED by the Council of the City of Clyde Hill this 10th day of December 2019.

APPROVED by the Mayor of the City of Clyde Hill this 10th day of December 2019.

CITY OF CLYDE HILL

MAYOR, GEORGE S. MARTIN

ORDINANCE NO. ___
SUMMARY OF ORDINANCE NO. 970
of the City of Clyde Hill, Washington

On December 10, 2019, the City Council of the City of Clyde Hill, Washington, approved Ordinance No. 970, the main points of which are summarized by its title as follows:

AN ORDINANCE OF THE CITY OF CLYDE HILL, WASHINGTON, LEVYING THE GENERAL TAXES FOR THE CITY OF CLYDE HILL IN KING COUNTY FOR THE FISCAL YEAR COMMENCING JANUARY 1, 2020, ON ALL PROPERTY, BOTH REAL AND PERSONAL, IN SAID CITY WHICH IS SUBJECT TO TAXATION FOR THE PURPOSE OF PAYING SUFFICIENT REVENUE TO CARRY ON THE SEVERAL DEPARTMENTS OF SAID CITY FOR THE ENSUING YEAR AS REQUIRED BY LAW; PROVIDING FOR SEVERABILITY; PROVIDING FOR SUMMARY PUBLICATION BY ORDINANCE TITLE AND PROVIDING FOR AN EFFECTIVE DATE.
The full text of this ordinance will be mailed upon request.

APPROVED by the City Council at their meeting of December 10, 2019.

CITY CLERK, LYMAN HOWARD

**Budget Glossary**

The following are generally accepted definitions of some of the more common terms or acronyms you may encounter when reviewing the City of Clyde Hill budget documents. Included also is more specific information about how the particular budget term or acronym relates to the City of Clyde Hill.

**ADOPTED BUDGET:** A plan of financial operation, legally adopted by the City Council, providing an approved level of expenditures and a means of financing them for a given fiscal period.

For the City of Clyde Hill, the next year’s budget is usually adopted at the regular December City Council meeting proceeding the budget year. Two separate City Ordinances and a motion are voted on at the December meeting: 1) Ordinance to adopt the next year’s property tax levy, 2) Ordinance to adopt the next year’s Budget and Capital Facilities Plan for the fiscal year beginning on January 1 of the following year, & 3) motion to adopt the City’s Financial Plan that includes a set of long-term Financial Policies and a short-term Strategic Plan. Clyde Hill operates under an annual budget whereas neighboring bigger cities like Bellevue, Kirkland and Redmond all use a biennial budget.

**APPROPRIATION:** An authorization made by the City Council that permits officials to incur obligations against and to make expenditures of governmental resources. Appropriations are usually made for fixed amounts and are typically granted for a one-year period.

For the City of Clyde Hill, an appropriation is commonly called the “budget amount” and is the total expenditure amount by fund listed in the adopted budget. Clyde Hill staff understand this total expenditure amount by fund as the total amount they can legally spend in a fiscal period unless the City Council approves a budget amendment. To maintain close control so that the staff does not over spend the appropriation: 1) Department heads are expected to stay within their particular line item budgets, 2) monthly financial statements are prepared with a comparison of actual expenditures to budget, & 3) Quarterly Budget Monitoring Report is prepared to identify potential problems and develop a “treatment plan” to fix the problem by year end.

**ASSESSED VALUATION (AV):** A valuation set upon real assets or other property by a government as a basis for levying taxes.

For the City of Clyde Hill, the King County Assessor’s Office sets the assessed value amount for each home in Clyde Hill and the City has no control over the process. Visit the King County Assessor’s Office web site at [http://www.kingcounty.gov/Assessor.aspx](http://www.kingcounty.gov/Assessor.aspx) for more information.
BALANCED BUDGET: Per State Law, the City must balance its budget with expenditures equaling available resources.

For the City of Clyde Hill, this means the City may use beginning fund balance, transfers from the reserve fund and anticipated revenues to pay for budgeted expenditures.

BARS: The acronym “BARS” stands for Budgeting, Accounting, and Reporting Systems that is prescribed by the State of Washington and administered through the State Auditor’s Office (SAO).

The City of Clyde Hill’s accounting and budgeting systems are designed to be in compliance with the BARS manual. The BARS manual has been a “living document” for at least the past few years requiring close monitoring of changes to maintain compliance.

BASIS OF BUDGETING: This refers to the method of accounting used to estimate financing sources and uses in the budget. This generally takes one of three forms: generally accepted accounting principles (GAAP), cash, or modified accrual. Bigger cities like Bellevue account for all governmental funds on a modified accrual basis. This means that: 1) expenditures are recognized when goods are received or services are executed, and 2) revenues are recognized when they are measurable and available; provided that payments for expenditures are made, and revenues are collected, within a 60-day period thereafter.

As authorized by the State Auditor’s Office (SAO) for small cities in the State of Washington, the City of Clyde Hill uses the modified cash basis for both accounting and budgeting. This means that expenditures are not recognized in the accounting system until the goods or services are paid for and they’re not paid for until received. Modified cash basis means that the State Auditor’s Office requires the City to have a 20 day “Open Period” to pay any invoices received during the 1st twenty days of January for services received the previous year. Revenues are not recognized in the City’s accounting system until they are deposited into the bank.

BEGINNING FUND BALANCE: The cash balance at the start of a fiscal year available for appropriation in the current and future years.

BUDGET (Operating): A plan of financial operation embodying an estimate of proposed expenditures for a given period (typically a fiscal year) and the proposed means of financing them (revenue estimates). The term is also sometimes used to denote the officially approved expenditure ceilings under which the City and its departments operate.

BUDGET DOCUMENT: The instrument used by the budget-making authority to present a comprehensive financial program to the appropriating body. The budget
document usually consists of two parts. The first part contains a message from the budget-making authority, together with a summary of the proposed expenditures and the means of financing them. The second part consists of schedules supporting the summary. These schedules show in detail the information as to the past years actual revenues, expenditures and other data used in making the estimates. In addition to the budget document, an appropriation ordinance or resolution and revenue and borrowing measures will be necessary to put the budget into effect.

**BUDGET MESSAGE:** A general discussion of the proposed budget as presented in writing by the budget-making authority to the legislative body. The budget message should contain an explanation of the principal budget items, an outline of the government experience during the past period and its financial status at the time of the message, and recommendations regarding the financial policy for the coming period.

**CAPITAL BUDGET:** A plan of proposed capital outlays and the means of financing them.

**CAPITAL EXPENDITURES:** The City is a “cash basis” accounting entity. This means that all capital expenditures are expensed when paid for and not recorded as assets. The City does keep track of tangible personal property over $250 and small and attractive items for insurance and security purposes.

The City of Clyde Hill would always look to the Budgeting, Reporting and Accounting System (BARS) manual maintained by the State Auditor’s Office for guidance on defining what is commonly called a “capital expenditure.” The BARS manual directs the reader, “See Capital Outlays.” Capital Outlays is defined in the BARS manual as, “Expenditures which result in the acquisition of or addition to capital assets.” Capital Assets are defined in the BARS manual as, “Land, improvements to land, easements, buildings, building improvements, vehicles, machinery, equipment, works of art and historical treasures, infrastructure, and all other tangible or intangible assets that are in operations and that have initial useful lives extending beyond a single reporting year.

For practical purposes, a $5,000 threshold is used by the City of Clyde Hill in defining a capital asset.

**CAPITAL FACILITIES PLAN:** A plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from the long-term work program or otherwise. It sets forth each project or other contemplated expenditure in which the government is to have a part and specifies the full resources estimated to be available to finance the projected public facilities.

In Washington State, a capital improvement project must be identified in the City’s Capital Facilities Plan in order to be eligible for payment with revenue coming from the
2nd quarter percent of the Real Estate Excise Tax (REET) charged on real estate transactions.

CAPITAL PROJECTS FUND: A fund created to account for financial resources to be used for the acquisition or construction of major capital facilities. The City of Clyde Hill includes this in the Projects Fund as the Capital Projects Department.

CONSTANT OR REAL DOLLARS: The presentation of dollar amounts adjusted for inflation to reflect the real purchasing power of money as compared to a certain point in time in the past. For the City of Clyde Hill, the inflation rate is indexed to 1990.

CPI-W: The Bureau of Labor Statistics (BLS) publishes the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) on a monthly basis. The City of Clyde Hill uses this measure of inflation in the budget documents and the police contract. Also of note is that the CPI-W is used to annually adjust benefits paid to Social Security beneficiaries and Supplemental Security Income recipients.

DEFICIT: The City of Clyde Hill uses this term to describe the excess of expenditures over revenues during a single fiscal accounting period.

DEVELOPMENT ACTIVITY: Clyde Hill uses this term to describe any new home or remodeling construction activities. This term would also include school construction activity although we try to separate school construction from residential construction when forecasting revenue from this source. Revenue from this source comes to the City of Clyde Hill primarily in the form of building permits, plan check fees, zoning fees, sales tax, new construction property taxes and miscellaneous permits (i.e. original grade determination, demolition, SEPA, grading, fire sprinkler, street opening, etc.)

DISTINGUISHED BUDGET PRESENTATION AWARDS PROGRAM: A voluntary awards program administered by the Government Finance Officers Association (GFOA) to encourage governments to prepare effective budget documents. The City of Clyde has participated in this program and has won this award every year since 2006.

ENCUMBRANCES: Obligations in the form of purchase orders, contracts or salary commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid or when an actual liability is set up.

The City of Clyde Hill does require a purchase order from employees for non-routine transactions over $250 but does not formally account for encumbrances in the accounting and reporting system.

ENDING FUND BALANCE: For the City of Clyde Hill, this represents the actual cash balance remaining at the end of the fiscal year available for appropriation in future years.
EXPENDITURES: Payment for goods and services. Under the modified accrual basis used by the City of Bellevue, expenditures are recognized when goods are received or services are rendered; provided that payments for expenditures are made within a 60-day period thereafter. For the City of Clyde Hill, expenditures are not recognized in the accounting system until the goods or services are paid for and they’re not paid for until received.

FISCAL YEAR: A 12-month period to which the annual operating budget applies and at the end of which a government determines its financial position and results of its operations. The fiscal year for the City of Clyde Hill is the calendar year from January 1st through December 31st. The fiscal year for the State of Washington and all of the State Agencies runs from July 1st through June 30th. The fiscal year for the Federal Government starts October 1st and runs through September 30th.

FUND: A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The City of Clyde Hill has three funds: 1) General Fund, 2) Reserve Fund, and 3) Projects Fund.

GENERAL FUND: The General Fund represents the “operating fund” for the City of Clyde Hill. This Fund keeps track of all operating revenues and expenses within the following departments: 1) General Government Support (Legislative, Executive, Financial & Administrative & Legal), 2) Law Enforcement, 3) Fire and 4) Public Works/Building Departments.

INTERNAL CONTROL: A plan of organization for purchasing, accounting, and other financial activities which, among other things, provides that: The duties of employees are subdivided so that no single employee handles financial action from beginning to end. Proper authorization from specific responsible officials are obtained before key steps in the processing of a transaction are completed, records and procedures are arranged appropriately to facilitate effective control.

The City of Clyde Hill has a written “Financial Internal Control System” that is updated annually and shared with the Washington State Auditor’s Office during their annual audit. The components of this system include: 1) Control Environment, 2) Risk Assessment, 3) specific Control Activities, 4) Flow of Information and Communication, & 5) Monitoring. The most recently updated “Financial Internal Control System” for the City of Clyde Hill follows this glossary for your review.

INVESTMENTS: Securities and real estate purchased and held for the production of income in the form of interest, dividends, rentals and base payments.
**LEVY:** (1) To impose taxes, special assessments or service charges for the support of governmental activities. (2) The total amount of taxes, special assessments or service charges imposed by a government.

**LEVY LID:** A statutory restriction on the annual increase in the amount of property tax a given public jurisdiction can assess on regular or excess levies.

**LIABILITY:** Debt or other legal obligations arising out of transactions in the past which must be liquidated, renewed or refunded at some future date. This term does not include encumbrances.

**LID:** Local Improvement District or Special Assessments made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

**OPERATION FUNDS:** Resources derived from recurring revenue sources used to finance ongoing operating expenditures and pay-as-you-go capital projects.

**OPERATING TRANSFER:** Routine and/or recurring transfers of assets between funds.

**ORDINANCE:** A statute or regulation enacted by City Council.

**OTHER SERVICES AND CHARGES:** A basic classification for services, other than personnel services, which are needed by the City. This item includes professional services, communication, travel, advertising, rentals and leases, insurance, public utility services, repairs and maintenance, and miscellaneous.

**PERS:** Public Employees Retirement System provided for, other than Police and fire, by the State of Washington.

**PROJECTS FUND:** The Projects Fund represents a combined “special revenue & projects fund” for the City. This fund separates all “restricted” revenue sources or grants into sub-areas and keeps track of all specific expenses within those functional areas. The Fund also serves to coordinate the City’s major capital improvements and other special projects.

**RCW:** Revised Code of Washington

**REET:** (Real Estate Excise Tax) A tax upon the sale of real property from one person or company to another.
**RESERVE FUND:** The Reserve Fund represents the “discretionary or emergency fund” for the City. This fund could also be called the “Rainy Day” fund.

**RESOLUTION:** A formal statement of a decision or expression of an opinion of the City Council.

**REVENUES:** Income received by the City in support of a program of services to the community. It includes such items as property taxes, fees, grants, fines and forfeits, interest income and miscellaneous revenue.

**REVENUE ESTIMATE:** A formal estimate of how much revenue will be earned from a specific revenue source for some future period.

**TAX:** Charge levied by a government to finance services performed for the common benefit.

**TAX LEVY ORDINANCE:** An ordinance through which taxes are levied.

**TAX RATE LIMIT:** The maximum legal rate at which a municipality may levy a tax. The limit may apply to taxes raised for a particular purpose or for general purposes.
The Government Finance Officers Association of the United States and Canada (GFOA) has presented an award of Distinguished Presentation to the City of Clyde Hill, Washington for its annual budget for the fiscal year beginning January 1, 2019. The City also received this recognition for its annual budget for years 2006 through 2018.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communications device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to the GFOA to determine its eligibility for another award.
