

PROJECT NOTICE

Reservoir Water Storage Optimization

Dear Bellevue Utilities Customer and Neighbors:

This card is intended to inform you that the City is planning on constructing reservoir improvement to increase the availability of water during an emergency. Construction of the improvements at 2101 95th Ave NE is anticipated to begin in the summer of 2017.

This project is part of an ongoing program to improve the reliability of the water system.

The construction area will be fenced and a pedestrian detour route provided.

At various times throughout the project there may be temporary traffic control in place to facilitate material delivery.
